Container QRCode Format

QRCodes allow up to 4,000 bytes of information to be stored in a single machine readable Barcode.

This page describes the format TapeTrack uses to store Container and Container content information.

Example

```
:START:ARCHIVE:V1
:CREATED:2017-06-26@10:01
:SCOPE:ACME.LTO
:CONTAINER:0000001
000001L3
000002L3
000003L3
000004L3
000005L3
000006L3
000007L3
000008L1
:SCOPE:ACME.3592
000003JB
000004JA
000005JA
:END
```
