System Requirements

Prerequisite Software

There is no prerequisite software required to install and run the TapeTrack Checkpoint software; however, it must connect to an existing TapeTrack Server.

Recommended Configuration

The requirement for TapeTrack Lite is a network connection to a TapeTrack Framework Server.

The requirements for the TapeTrack Lite are minimal, but the following minimum configuration is recommended:

- Windows XP or above.
- 1 GB of RAM.
- 20 MB of additional storage.
- Gigabyte Ethernet

Virtualization Support

The TapeTrack Checkpoint software runs without issue in a virtualization environment and is regularly deployed under:

- VMWare ESX.
- Windows Hyper-V.
- Xen.
