TMSS10Catalog_NBU

Synopsis

```
TMSS10Catalog_NBU [-C date range] [-M default media ID] [-S logon string] [-c configuration file]
```

Description

TMSS10Catalog_NBU will create Catalog entries from NetBackup output.

Options

- -C Specifies the date range.
- -M Default media ID.
- -S The logon string argument sets the Server logon information
- -c The config file argument specifies the path to the Batch Configuration File. The Batch Configuration File allows you to perform advanced traversal of Customer, Media and Volumes, perform advanced barcode pre and post processing and route program output to syslogd.

Technical Support

The TapeTrack Software is commercially supported by a full time help desk staff. If you are experiencing problems or want some advice on how to configure or use the product please see the Accessing Technical Support page.
