

TMSS10Catalog_NBU

TMSS10Catalog_NBU will create Catalog entries from NetBackup output.

Synopsis

```
TMSS10Catalog_NBU [-C Customer-ID] [-F process file level data] [-M default  
Media-ID] [-S logon string] [-c configuration file] [-d include directories]  
[h database home directory]
```

Options

- -C Customer-ID.
- -F Process File Level Data
- -M Media-ID.
- -S The Logon string argument sets the [Server Logon Information](#)
- -c The config file argument specifies the path to the Batch Configuration File. The Batch Configuration File allows you to perform advanced traversal of [Customer](#), [Media](#) and [Volumes](#), perform advanced Barcode pre and post processing and route program output to syslogd.
- -d Include directories.
- -h Database home directory.

Technical Support

The TapeTrack Software is commercially supported by a full time help desk staff.

If you are experiencing problems or want some advice on how to configure or use the product please see the [Accessing Technical Support](#) page.
