TMSS10ListCustomers

TMSS10ListCustomers lists all Customer records, except hidden Customers, listing their Customer-ID, Description, current Volume count, Volume statistics and address.

Synopsis

```
TMSS10ListCustomers [-A attribute index] [-S logon string] [-V volume filter] [-c configuration file]
```

Options

- -A Extended Attribute index (default = 0).
- -S The Logon string argument sets the Server Logon Information.
- -V Volume Filter which can be used to filter the traversal of Customer, Media, Volume, repository and flag values.
- -c The config file argument specifies the path to the Batch Configuration File. The Batch Configuration File allows you to perform advanced traversal of Customer, Media and Volumes, perform advanced Barcode pre and post processing and route program output to syslogd.

Technical Support

The TapeTrack Software is commercially supported by a full-time help desk staff.

If you are experiencing problems or want some advice on how to configure or use the product please see the Accessing Technical Support page.

Files

stdout: Output Reports.
stderr: Diagnostic messages.

Example
