

TMSS10ListRepositories

Synopsis

```
TMSS10ListRepositories [-S logon string] [-V volume filter]
```

Description

TMSS10ListRepositories list the current status of each repository including capacity, usage, incoming volumes, outgoing volumes and assigned slots.

Options

- -R Specifies the date range.
- -S The logon string argument sets the [Server logon information](#).
- -V [Volume Filter](#) which can be used to filter the traversal of Customer, Media, Volume, repository and flag values.

Technical Support

The TapeTrack Software is commercially supported by a full time help desk staff. If you are experiencing problems or want some advice on how to configure or use the product please see the [Accessing Technical Support](#) page.
