TMSS10MoveDateList

TMSS10MoveDateList lists all volumes that are set to move within the specified date range.

Synopsis

```
TMSS10MoveDateList [-S logon string] [-V volume filter] [-c configuration file] [-e expiry] [-r range]
```

Options

- -S The Logon string argument sets the Server Logon Information
- -V Volume Filter which can be used to filter the traversal of Customer, Media, Volume, Repository and Flag values.
- -c The config file argument specifies the path to the Batch Configuration File. The Batch Configuration File allows you to perform advanced traversal of Customer, Media and Volumes, perform advanced Barcode pre and post processing and route program output to syslogd.
- -e Use expiry date rather than Next move date: default = false
- -r Day range, 0 = all, -n = Last n entries in list, +n = First n entries in list.

If an argument value starts with the value `FI:`, the value for that attribute will be read from the file name specified immediately after it. For example, if a file named ACME_volumes has the content `ACME_*.*`, specifying `FI:/etc/ACME_volumes` will have the same effect as `-V ACME.*.*`. Using `FI:` to refer to a file for an attribute value works for all attributes.

If the pattern being matched starts with *LIST: then rather than matching the literal value, each record in the file specified as *LIST:filename will be tested. If one matches the match will succeed.

Notes

Report-ID: 106

Technical Support

The TapeTrack Software is commercially supported by a full time help desk staff. If you are experiencing problems or want some advice on how to configure or use the product please see the Accessing Technical Support page.

Exit Statuses

1. **zero** Program has ended successfully.
2. **non-zero** Program has not ended successfully.

Environment

Files

stdout: Output Reports.
stderr: Diagnostic messages.
stdin: Program input.

Example

Command line syntax

<sxh> TMSS10MoveDateList -S user:-password@server -r “-3” -V “US02.*.*” </sxh>

Output

<sxh>

```
           System: TapeTrack
        Report ID: 106
```

Report Description: Volume Movement Prediction List

```
     Report Notes: Movement Date(Monday, November 27, 2017)
  Production Time: Thursday, November 23, 2017 - 12:09:05 (AUS Eastern
Daylight Time)
     Report Width: 81 bytes
```

Seq. Barcode Repository Location —— ———————- ———————- ——————————— 1
US02.LTO.000010L6 Library No-Alloc —— ———————- ———————- ———————————

```
           System: TapeTrack
        Report ID: 106
```

Report Description: Volume Movement Prediction List

```
     Report Notes: Movement Date(Tuesday, November 28, 2017)
  Production Time: Thursday, November 23, 2017 - 12:09:05 (AUS Eastern
Daylight Time)
```

```
     Report Width: 81 bytes
```

Seq. Barcode Repository Location —— ———————— ———————— ———————————— 1
US02.LTO.000009L6 Library No-Alloc —— ———————— ———————— ————————————

```
           System: TapeTrack
        Report ID: 106
```

Report Description: Volume Movement Prediction List

```
     Report Notes: Movement Date(Wednesday, November 29, 2017)
  Production Time: Thursday, November 23, 2017 - 12:09:05 (AUS Eastern
Daylight Time)
     Report Width: 81 bytes
```

Seq. Barcode Repository Location —— ———————— ———————— ———————————— 1
