

TMSS10MoveList

This program produces a report of all [Volumes](#) that are in a Move Status.

Synopsis

```
TMSS10MoveList [-S logonstring] [-V volumefilter] [-C repfilter] [-T  
repfilter] [-v] [-c configfile]
```

Description

TMSS10MoveList produces a report listing all tape [Volumes](#) that are in a “Move Status”, i.e. they have a different Current and Target [Repository](#).

Options

The options which apply to the TMSS10MoveList command are:

- -S The logonstring argument sets the Server login information (see [Command Line Server Argument](#)).
- -V The volumefilter argument sets the [Volume Filter](#) which can be used to filter the traversal of [Customer](#), [Media](#) and [Volume](#) values.
- -C Current [Repository](#) Filter.
- -T Target [Repository](#) Filter.
- -v Print Virtual Locations.
- -c The configfile argument specifies the path to the Batch Configuration File.

If an argument value starts with the value FI:, the value for that attribute will be read from the file name specified immediately after it. For example, if a file named ACME_volumes has the content ACME_*.*, specifying FI:/etc/ACME_volumes will have the same effect as -V ACME.*.*. Using FI: to refer to a file for an attribute value works for all attributes.

If the pattern being matched starts with *LIST: then rather than matching the literal value, each record in the file specified as *LIST:filename will be tested. If one matches the match will succeed.

Notes

Moving Volumes List
Report-ID: 102

Moving Directions List

Report-ID: 103

Exit Status

1. **zero** Program has ended successfully.
2. **non-zero** Program has not ended successfully.

Environment

- [TMSSAPILOGDIR](#)
- [TMSSBEEP](#)
- [TMSSNOMD5](#)
- [TMSSPWPATH](#)
- [TMSSSERVERPROXY](#)
- [TMSSAPILOGDIR](#)

Files

- stdout Output Reports.
- stderr Diagnostic messages.
- stdin Program input.

Examples

Command line syntax

```
<sxh> TMSS10MoveList -S user:-password@server </sxh>
```

Output

```
<sxh>
```

```
System: TapeTrack  
Report ID: 102
```

Report Description: Moving Volumes List

```
Report Notes: Customer(New York Data Center) Media Type(LT0 Cartridge)  
Production Time: Thursday, July 18, 2019 - 09:30:39 (AUS Eastern Standard  
Time)  
Report Width: 190 bytes
```
