```
TMSS10SlotAllocation [-S logonstring]] [-V vloume filter] [-c configuration file] [-r repository filter]
```

Options

Technical Support

The TapeTrack Software is commercially supported by a full time help desk staff.

If you are experiencing problems or want some advice on how to configure or use the product please see the Accessing Technical Support page.

Sample Script

A sample slotting script to execute TMSS10SlotAllocation can be found in your TapeTrack Install at TapeTrack\TapeTrack Framework Server\scripts

This script will allocate a Volume to a vacant Slot that is in a location eligible for slotting.

While it is possible to execute this scrip manually when required, it is recommended that this script be scheduled to run every 5 minutes.

Sample Script

<sxh> @echo off :: :: Object Type: DOS Batch Script :: Description: TapeTrack Slotting script :: System: TMSS :: SecLevel: Proprietary :: Copyright: © 2012 GazillaByte LLC ::

:: :: set the working directory to the TapeTrack Scripts directory so we can use relative paths :: cd “%TMSS10SCRIPTS%”

set TTSERVER=tapemaster:-@localhost

TMSS10SlotAllocation -S %TTSERVER% > “%TMSS10REPORTS%\slotting_report.txt” 2> “%TMSS10REPORTS%\slotting_error.txt” </sxh>
