

Adding Long Barcode Values To Extended Attributes

When adding hashed Long Barcodes to TapeTrack, the unhashed Barcode can be automatically added to the Volume's Description or an [Extended Attribute](#) to allow a human readable along side the hashed value.

Sample Data

In this example we will use the following Volume-ID's to scan into TapeMaster

- VOLUME_1001
- 100010002234
- MONDAY VOLUME 1

Adding [Extended Attribute](#) Long Barcode

Adding An Extended Attribute For Long Barcode

If you are adding the unhashed Barcode to the Volume field Description or you have already added the required [Extended Attribute](#) you can skip this section.

[Extended Attributes](#) are added at a Customer level and are then available to all Media types that belong to that Customer.

To add an [Extended Attribute](#), right-click the required Customer-ID from the Customer Tree and select Properties.

From the Edit Customer window, select the **Attributes** tab.

Edit Customer:

Media Types | User Access | Options | LibraryHealth

Identity | Contact Details | **Attributes**

☒ **Extended Attribute 1**

Name	Long barcode
Type	String
Required	False

☒ **Extended Attribute 2**

Name	
Type	String
Required	False

☒ **Extended Attribute 3**

Name	
Type	String
Required	False

Left-click in the first available blank **Extended Attribute** field Name .

Enter a descriptive name for the **Extended Attribute** (eg. Long Barcode), leaving the Type as String.

From the Edit Customer window, select the **Options** tab. From the Long Barcode Attribute field, select the **Extended Attribute** field you want the un-hashed Long Barcode to be added to (eg. Long barcode).

Edit Customer:

Media Types | User Access | Options | LibraryHealth

Identity | Contact Details | **Attributes**

Hide Customer	False
Disallow Customer Duplicates	False
Disallow Global Duplicates	False
Volume Lock	False
Hide No Children	False
Allowable Media-ID Filter	
Maximum number of Media-IDs	0
Holiday Group	
Customer Category	0
Parent Customer	
Account Number	0
Long Barcode Attribute	Description

<Not Selected>
Description
Long Barcode

Click Save.

Scanning Long Barcodes

Scan Long Barcodes, by right-clicking in the Inventory window and selecting Special Operations
→ Scan → Scan To Add Volumes

Scan-In the Volumes using your preferred method.

All Volumes Scanned with Long Barcodes will automatically have the un-hashed barcode value added to the [Extended Attribute](#) selected in the previous steps.

Viewing Long Barcode Values

To view the [Extended Attribute](#) (Long Barcode) in TapeMaster, from the main menu select View → Volume List Properties.

Select from the Attribute Field, under List Options, the required Attribute (Long Barcode). The un-hashed Long Barcode values will now display in the Inventory window.
