TapeTrack Checkpoint

TapeTrack Checkpoint is designed for Tape Librarians. It displays an online list of what Volumes need to be picked and/or put away as it audibly reads out the locations as the Volumes are scanned with a barcode scanner.

Supported Platforms

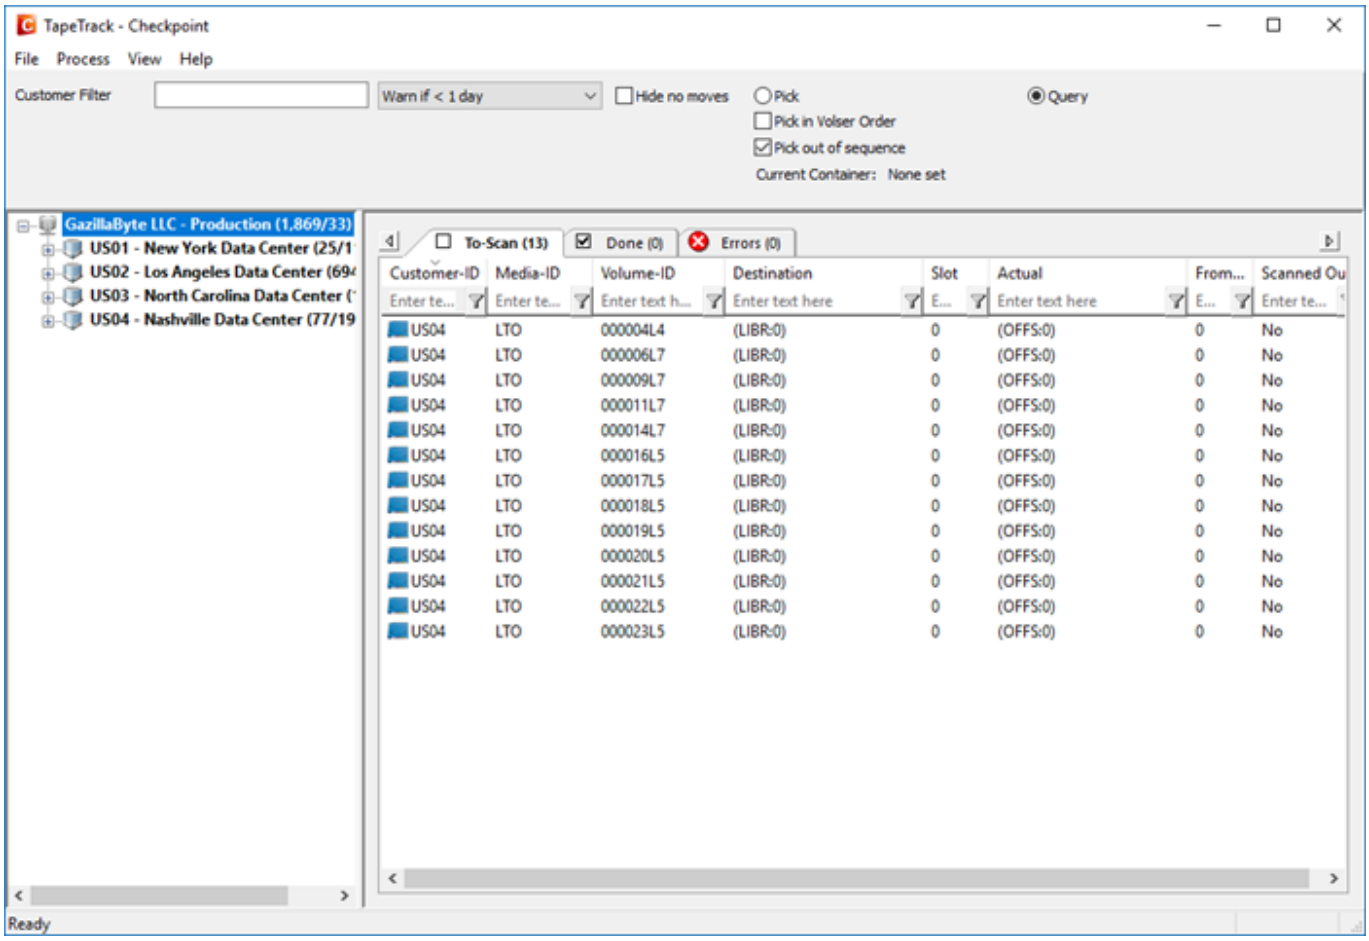

- Windows XP and above.

Technical Support

TapeTrack Software is commercially supported by a full time help desk staff.

If you are experiencing problems or want some advice on how to configure or use the product, please see the Accessing Technical Support page.
