Desktop Logon

To Logon from your desktop, select your server from the drop-down menu.

Enter your User-ID and Password.

Check **No MD5** if using Active Domain Integration.

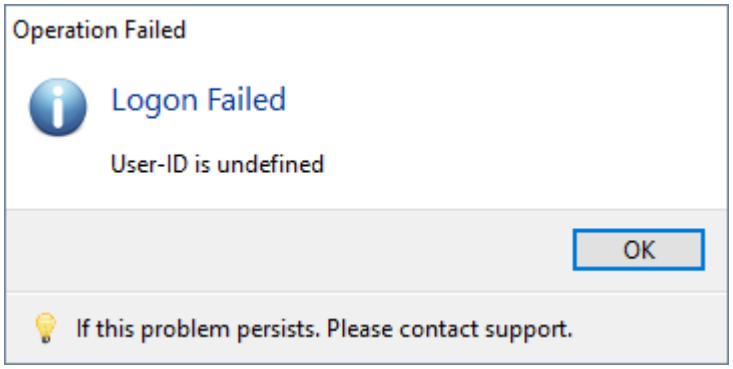

Click OK to login.

Login Errors

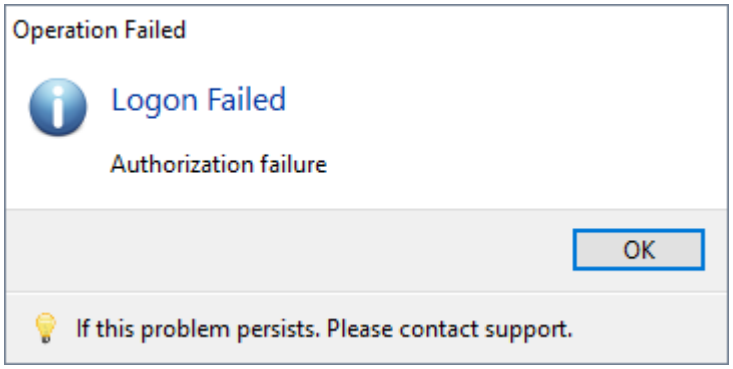

Incorrect User-ID

If you enter an incorrect user-ID you will see a popup saying **User-ID is undefined**. Check to make sure your user name is correct before logging in.

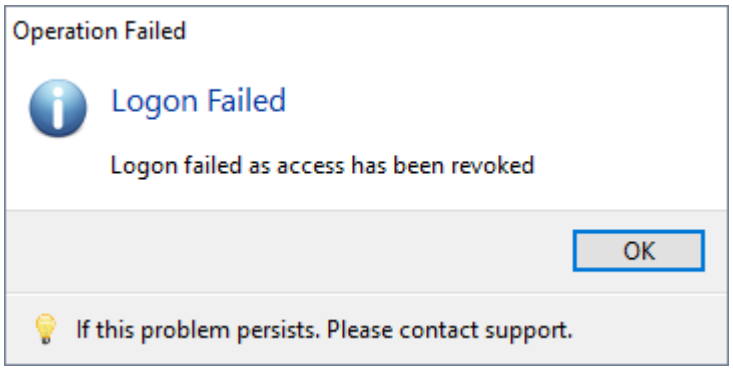

Incorrect Password

If you enter an incorrect password you will see a popup saying **Logon Failed**. Ensure your password is typed in correctly.

After 4 incorrect logins, user access will be revoked as a security measure. To reactivate access your administrator will need to reset your password.
