

ChangeCase

Change the case of a field.

Phase

This instruction is used by the TapeTrack Import Engine.

Syntax

```
ChangeCase(field, type);
```

string field;

string type;

LOWER, UPPER, CAPITALIZED or INVERTED

field	The field for this instruction.
type	The special string type of one of the following:
	1. LOWER The data in the field will be converted to lower case.
	2. UPPER The data in the field will be converted to upper case.
	3. CAPITALIZED The data in the field will be converted so that the first letter of each word is capitalized.
	4. INVERTED The data in the field will be converted so that any upper case character will be lower case and vice versa.

Example

To change the Description value my description value to My Description Value

```
ChangeCase(DESCRIPTION, CAPITALIZE);
```

import engine
