

SetExpiryDateFormat

Set the strptime format for parsing the expiry date.

Phase

This instruction is used by the TapeTrack INI Engine.

Syntax

```
SetExpiryDateFormat("%%m/%%d/%%Y");
```

Variable	Type	Description	Min Length	Max Length
%%m/%%d/%%Y	String	String in strptime format	1	32

Example

Extract Expiry Date with the format mm/dd/YYYY

```
Extract(EXPIRYDATE, 7, 20, 0);  
SetExpiryDateFormat("%%m/%%d/%%Y");
```
