SetInitialRepository

Set the Current, Target and Scanned Repository value for newly added Volumes.

Phase

This instruction is used by the TapeTrack Synchronization Engine.

Syntax

```
SetInitialRepository(repository);
```

Variable	Type	Description	Min Length	Max Length
repository	String	The initial Repository values for a new Volume.	1	4

If the Media Type for the added Volume has an Initial Repository value set in its options, this value will override any value set by SetInitialRepository.

Example

Set the initial Repository for any new Volumes to LIBR.

<sxh> SetInitialRepository(“LIBR”);

</sxh>
