Excel Import

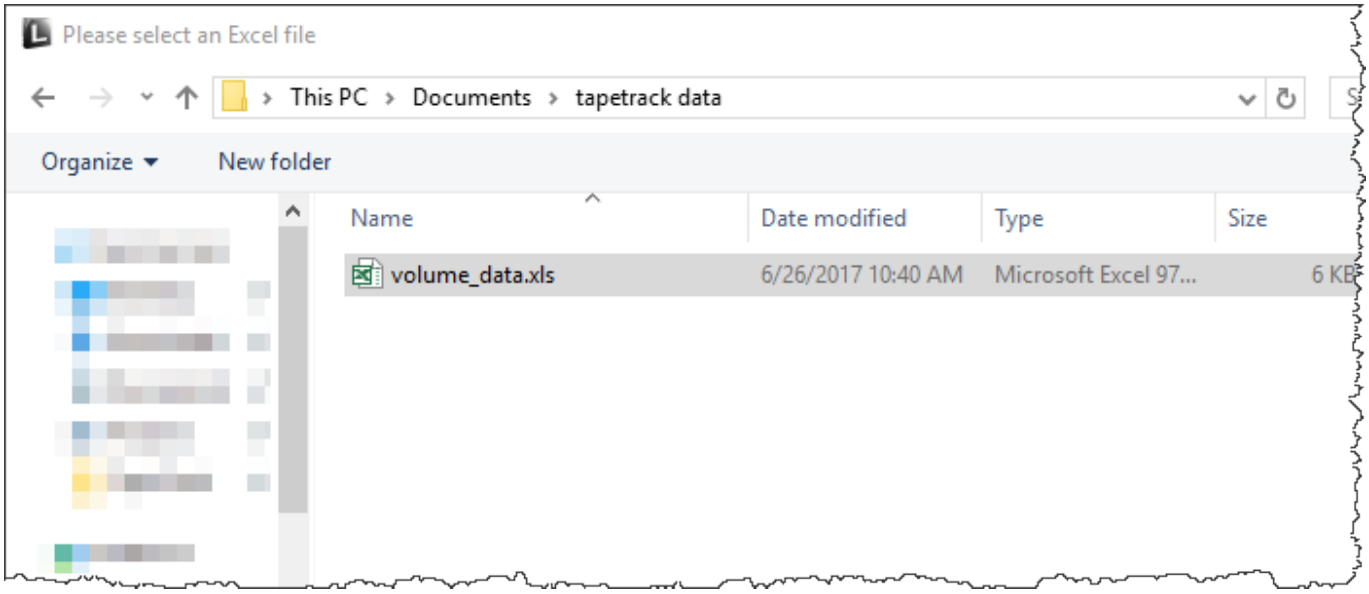

The Excel import task allows you to import volume data from an excel xls file by mapping the Excel values to TapeTrack attributes.

Managing Volumes

Once logged into TapeTrack Lite, select Excel Import from the drop-down menu.

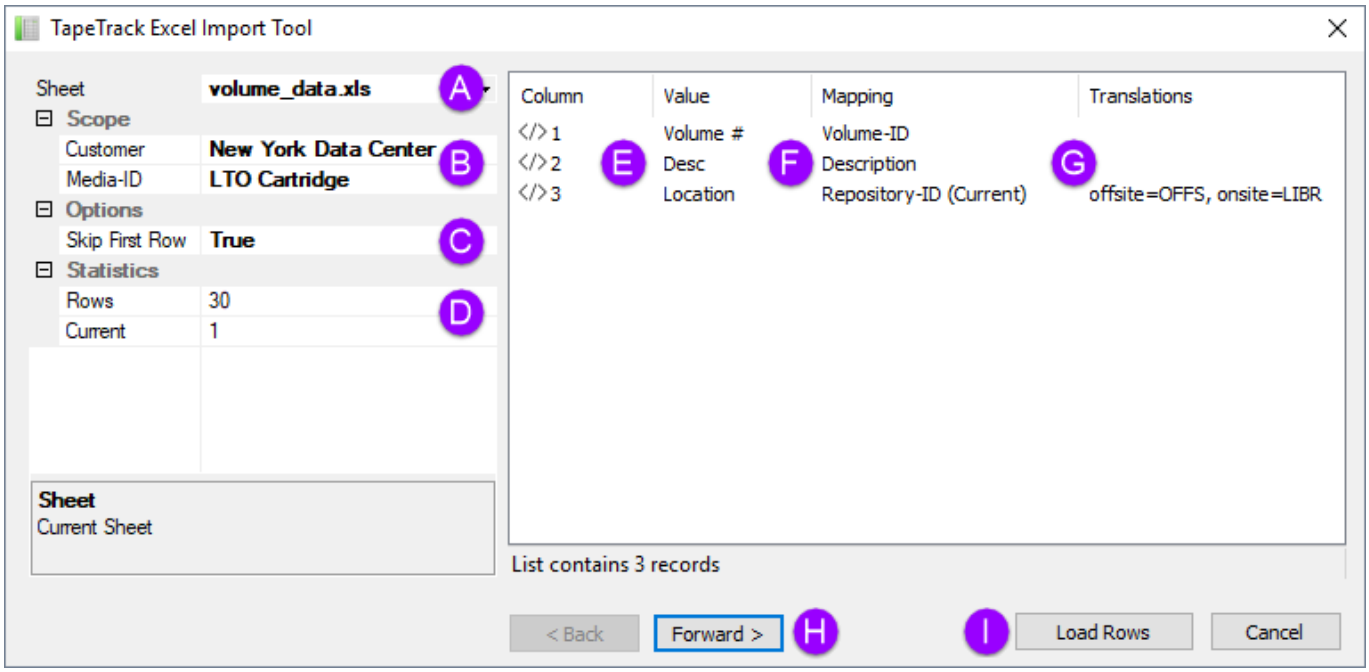

Select the Excel file to import the data from

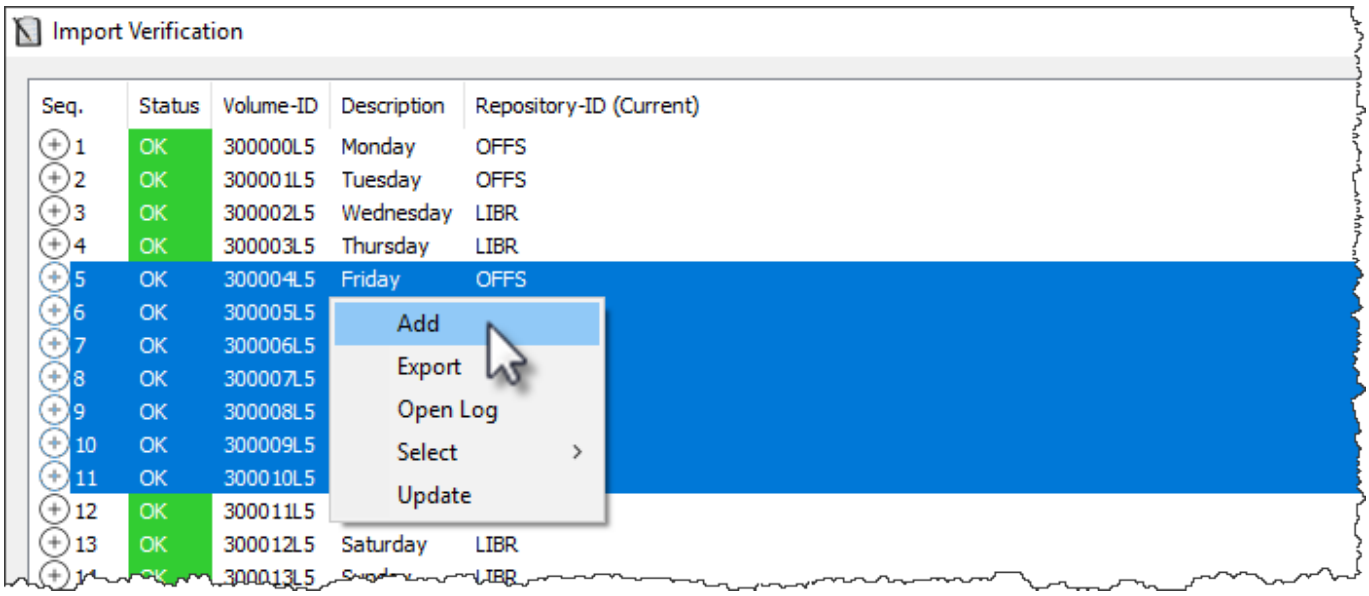

In the TapeTrack Excel import tool select the:

- Customer you wish to import the data into
- Select the Excel sheet to import the data from
- Media type if the volumes all belong to one media type
- Set skip first row to true if there are headings presents.

Notes

- **A** Excel .xls file being imported
- **B** Customer and Media ID (Media ID can be mapped from Excel file or set here)
- **C** Skip first row if headings are present
- **D** Excel sheet data
- **E** Excel sheet column headings
- **F** TapeMaster attributes
- **G** Translations of Excel data to TapeMaster format (i.e. offsite to OFFS)
