

Library Management

The TapeTrack Lite Library Management function allows you to manage individual libraries.

Library Management Process

Select Library Management

Select Library Management from the Library Management Task's drop-down menu.

Options

This will open the **Options** window. If required you can set the location for the log files to be written to, or leave the default.

To change the default directory, click in the field to the right of the Log File Folder, click on the more options button (...). From the **Browse For File** window select the preferred directory and click OK.

Click Next to continue.

Click Next button to continue.

Customer Selection

Select the [Customer](#) that you want to manage [Volumes](#) for by double-clicking the [Customer-ID](#) or left-clicking the [Customer-ID](#) and clicking Next at the bottom of the page.

Media Selection

Select the [Media](#) to manage [Volumes](#) by double-clicking the required [Media](#) or by selecting the [Media](#) and clicking Next

Repository Selection

Select the [Repository](#) to manage by double-clicking the required [Repository](#) or by selecting the [Repository](#) and clicking Next

Volume Management

The **Volume Management** window displays [Volume](#) and [Repository](#) information including required moves to maintain the set level of scratch [Volumes](#).

Clicking execute will effect the displayed moves to manage the selected [Repository's](#) management requirements.

Closing this window by clicking the X at the top right to continue to the move list.
