

Library Management

The Library Management function allows you to manage individual libraries and the volumes contained within them.

Library Management Process

Select Library Management

Select Library Management from the **Task Menu** and click Next to continue.

Options

This will open the **Options** window. If required you can set the location for the log files to be written to, or leave the default.

To change the default directory, click in the field to the right of the Log File Folder and click on the (...) button and select directory.

Click Next to continue.

Customer Selection

Select the [Customer](#) that you want to manage [Volumes](#) for by double-clicking the [Customer-ID](#) or left-clicking the [Customer-ID](#) and clicking Next at the bottom of the page.

TapeTrack Lite™ - Customer Selection

Instructions

The Customer Selection screen allows you to select one TapeTrack Customer that will be the subject of operations in subsequent screens.
You may select a Customer by double clicking the Customer, or by clicking the Customer and pressing the Next button.

Customer	Volumes	Moves
New York Data Center	56	0
Los Angeles Data Center	23	7
North Carolina Data Center	56	23
Nashville Data Center	52	9
	187	39

☒ Remember previously selected Customer

Cancel

Media Selection

Select the [Media](#) to manage [Volumes](#) by double-clicking the required [Media](#) or by selecting the [Media](#) and clicking Next

TapeTrack Lite™ - Media Type Selection

Instructions

The Media Type Selection screen allows you to select a single TapeTrack Media Media Type to work with in subsequent screens.
You can select this Media Type by double clicking the required item in the list.

Media Type	Volumes	Moves	Scratch Deficit	Overdue
IBM 359x Cartridge	2,069	0	0	0
LTO Cartridge	211	16	0	0
Media Contain...	5	0	0	0

Repository Selection

Select the [Repository](#) to manage by double-clicking the required [Repository](#) or by selecting the [Repository](#) and clicking Next

Volume Management

The **Volume Management** window displays [Volume](#) and [Repository](#) information including required moves to maintain the set level of scratch [Volumes](#).

Clicking Execute will effect the displayed moves to manage the selected [Repository's](#) management requirements and take you to the **Move Lists** window.

If you don't wish to execute the move command, the **Volume Management** window can be closed by clicking the X at the top right to continue to the **Move list** window.

Repository Management: Library

Metrics

Repository

Capacity	193
In Use	187
Incoming	7
Outgoing	1
Net	193
Free Space	0

Scratch

Requirement	15
In Repository	11
Deficit	4

Extras

Free Space	0
Scratch Volumes	0

Calculations

Scratch (incoming)	4
Ejects (outgoing)	4

Targets

Repository	Offsite Vault
Bypass Ejects	False

Proposed Scratch Volumes to be entered

Volume	Current Repository	Last Move	Next Move	Expiry	Last Write
000018L6	Scratch Rack	2017-06-30	Permanent	Permanent	Never
000019L6	Scratch Rack	2017-06-30	Permanent	Permanent	Never
000020L6	Scratch Rack	2017-06-30	Permanent	Permanent	Never
000021L6	Scratch Rack	2017-06-30	Permanent	Permanent	Never

List contains 4 records

Proposed Non-Scratch Volumes to be ejected

Volume	Current Repository	Last Move	Next Move	Expiry	Last Write
000120L6	Library	Never	Permanent	Permanent	Never
CONT201	Library	Never	Permanent	Permanent	Never
000178L6	Library	Never	Permanent	Permanent	Never
000177L6	Library	Never	Permanent	Permanent	Never

List contains 4 records

Repository
Target for ejects

Selected=1 First Selected=2

Execute Cancel

Notes:

- **A** Repository usage statistics.
- **B** Repository scratch requirements.
- **C** Free slots and current scratch Volumes in repository.
- **D** Movement calculations required to hit scratch Repository targets.
- **E** Target Repository (required) for ejected Volumes.
- **F** Volumes selected to move into the Repository.
- **G** Volumes to be ejected to create enough space for incoming Volumes.

Move List

The **Move list** window displays all Volumes currently in a move status including Volume-ID, current and target location, elapsed move time, scanned out status and whether the Volume is overdue at its intended target Repository.

Move List Right Click Options

- **Edit**
 - **Copy:** Volume-ID's can be copied to the Windows clipboard by selecting the required volumes and right clicking the highlighted Volume/s and selecting Edit → Copy.
- **Export:** Reports can be exported by selecting the required volumes and right clicking the highlighted Volume/s and selecting Export.
- **Operations**
 - **Cancel Move:** Volumes can have their move revoked or canceled by right-clicking

highlighted **Volumes** and selecting Operations → Cancel Move

Complete

This will bring up the **Complete** window, from here you can:

- Click View Log File to view the log.
- Click Print Log File to print out the log file for further reference.
- Click About this Software to view product and support (email, phone & website) information.
- Click Back to return to start menu and select another task.
- Click Finish, Cancel or X to exit TapeTrack Lite.
