

Move Lists

The **Move list** window displays all **Volumes** currently in a move status including **Volume-ID**, current and target location, elapsed move time, scanned out status and whether the **Volume** is overdue at its intended target **Repository**.

Move List Right Click Options

- **Edit**
 - **Copy:** **Volume-ID's** can be copied to the Windows clipboard by selecting the required **volumes** and right clicking the highlighted **Volume/s** and selecting Edit → Copy.
- **Export:** Reports can be exported by selecting the required **volumes** and right clicking the highlighted **Volume/s** and selecting Export.
- **Operations**
 - **Cancel Move:** **Volumes** can have their move revoked or canceled by right-clicking highlighted **Volumes** and selecting Operations → Cancel Move
