

Move Lists

The TapeTrack Lite Move Lists function allows you to manage view moving [Volumes](#) for each [Media](#) type.

The **Move list** window displays all [Volumes](#) currently in a move status including [Volume-ID](#), current and target location, elapsed move time, scanned out status and whether the [Volume](#) is overdue at its intended target [Repository](#).

Select Move Lists

Select Move Lists from the drop-down task menu and click Next to continue.

Options

This will open the **Options** window. If required you can set the location for the log files to be written to, or leave the default.

To change the default directory, click in the field to the right of the Log File Folder, click on the more options button (...). From the **Browse For File** window select the preferred directory and click OK.

Click Next to continue.

Customer Selection

Select the [Customer](#) that you want to manage [Volumes](#) for by double-clicking the [Customer-ID](#) or left-clicking the [Customer-ID](#) and clicking [Next](#) at the bottom of the page.

TapeTrack Lite™ - Customer Selection [X]

Instructions

The Customer Selection screen allows you to select one TapeTrack Customer that will be the subject of operations in subsequent screens.

You may select a Customer by double clicking the Customer, or by clicking the Customer and pressing the Next button.

Customer	Volumes	Moves
New York Data Center	56	0
Los Angeles Data Center	23	7
North Carolina Data Center	56	23
Nashville Data Center	52	9
	187	39
