Move Lists

The TapeTrack Lite Move Lists function allows you to manage view moving Volumes for each Media type.

The **Move list** window displays all Volumes currently in a move status including Volume-ID, current and target location, elapsed move time, scanned out status and whether the Volume is overdue at its intended target Repository.

Select Move Lists

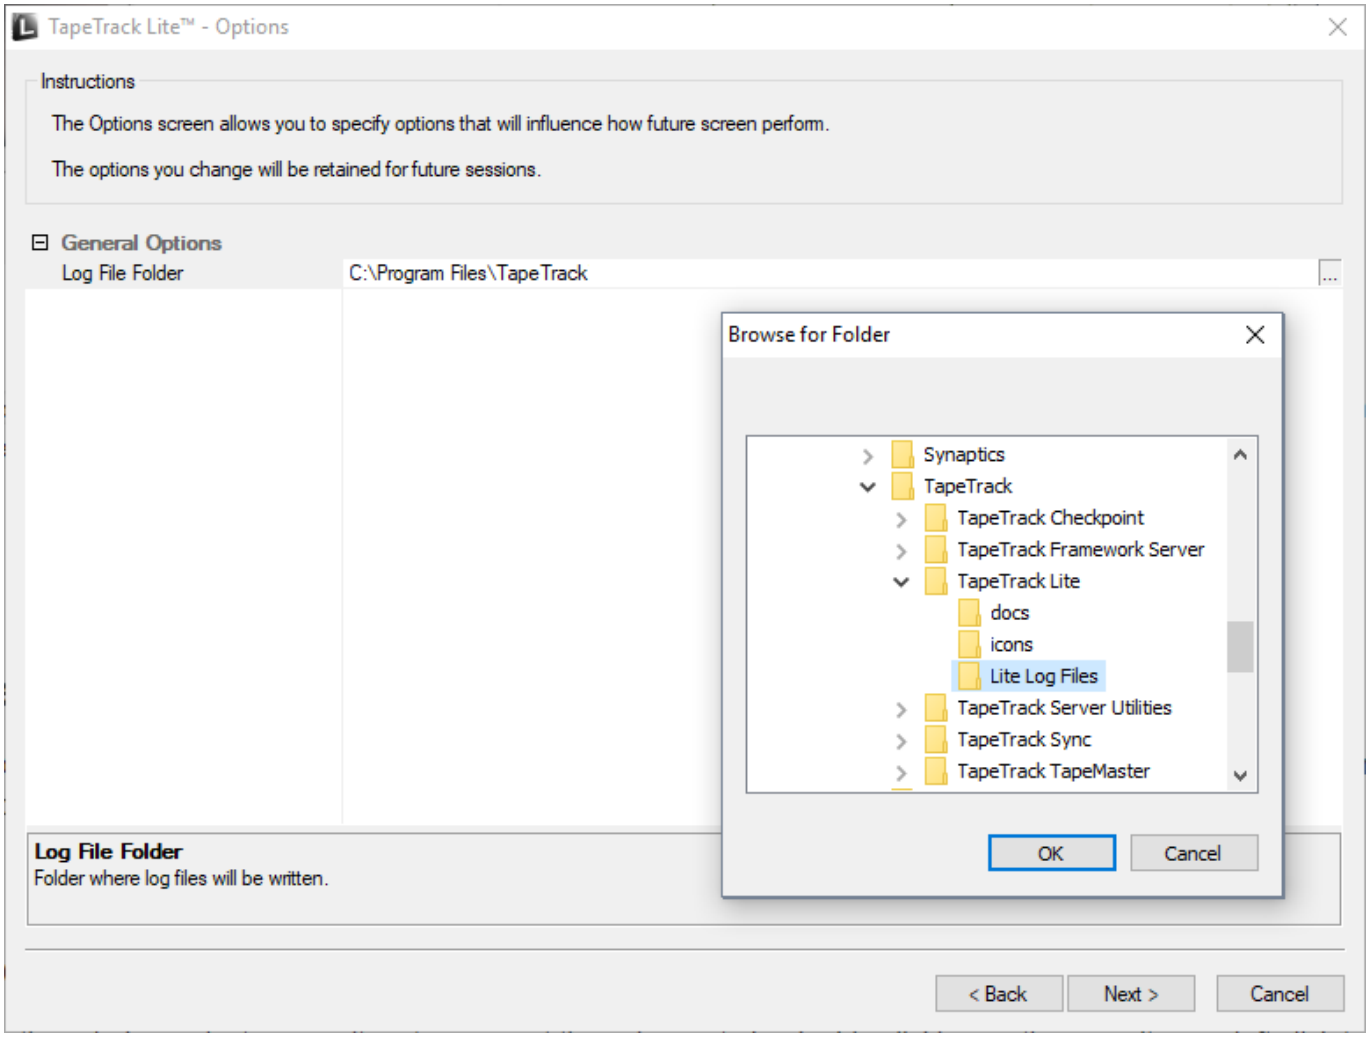

Select `Move Lists` from the drop-down task menu and click `Next` to continue.

Options

This will open the **Options** window. If required you can set the location for the log files to be written to, or leave the default.

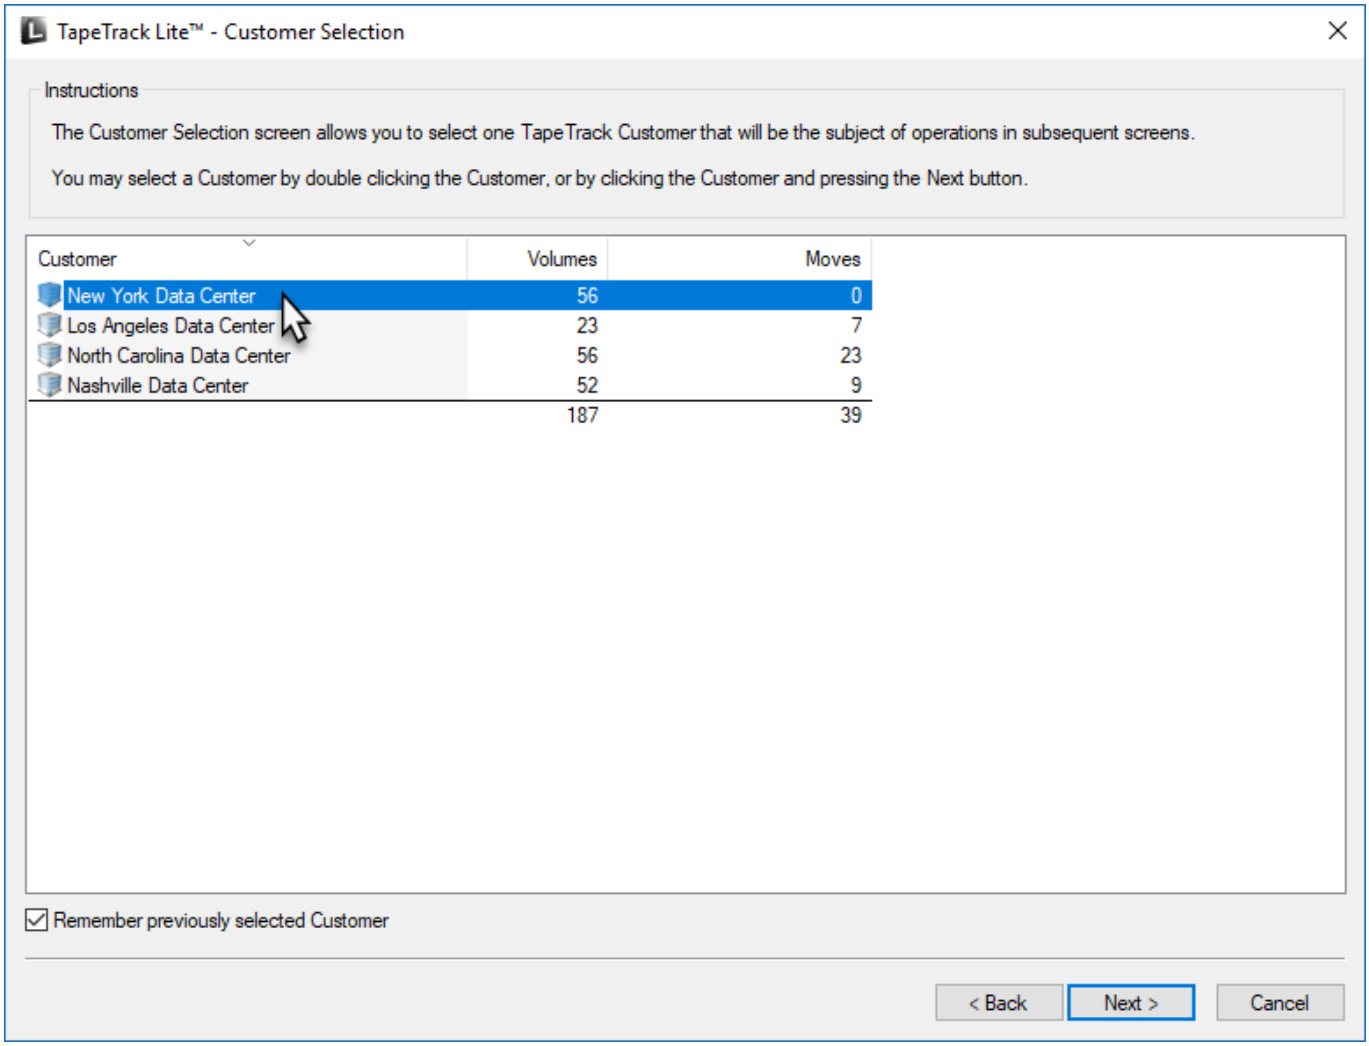

To change the default directory, click in the field to the right of the `Log File Folder`, click on the more options button (`…`). From the **Browse For File** window select the preferred directory and click `OK`.

Click `Next` to continue.

Customer Selection

Select the Customer that you want to manage Volumes for by double-clicking the Customer-ID or left-clicking the Customer-ID and clicking `Next` at the bottom of the page.

Move List

The **Move Lists** window displays moving Media separated into tabs by Media type

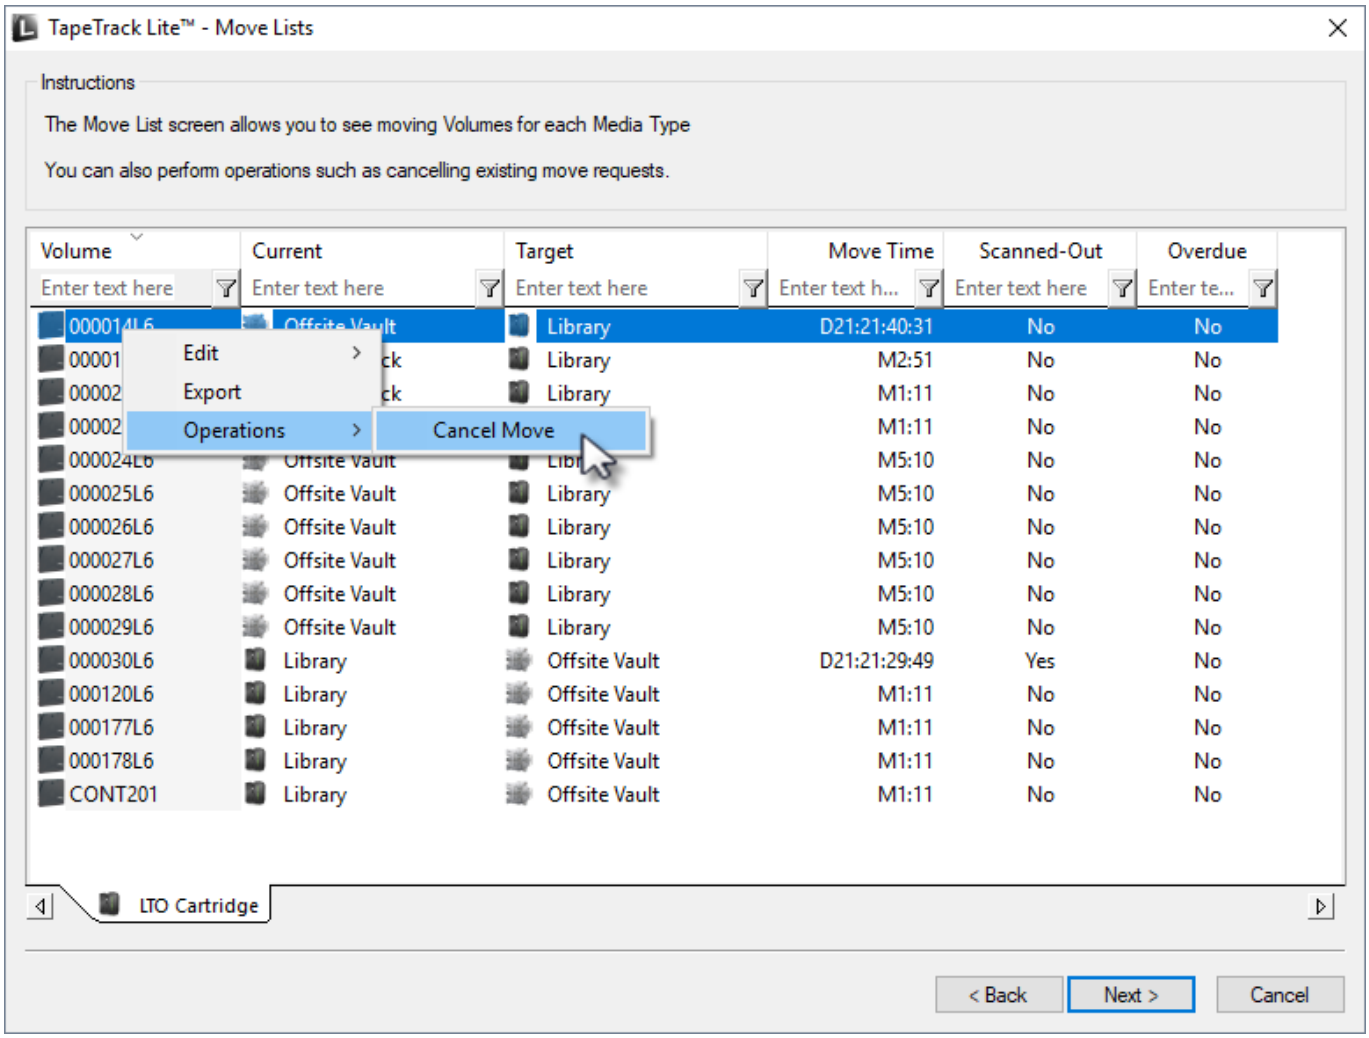

Each **Move Lists** tab displays:

- Volume-ID
- Current Repository
- Target Repository
- Move Time
- Scanned-Out status
- Overdue status

Move List Right Click Options

- **Edit**
  - **Copy**: Volume-ID's can be copied to the Windows clipboard by selecting the required volumes and right clicking the highlighted Volume/s and selecting `Edit → Copy`.
- **Export**: Reports can be exported by selecting the required volumes and right clicking the highlighted Volume/s and selecting `Export`.
- **Operations**

- **Cancel Move**: Volumes can have their move revoked or canceled by right-clicking highlighted Volumes and selecting `Operations → Cancel Move`
