Users

The Users task allows users to manage other user accounts in your group with an equal or lower priority access level than that of their own. Each user is assigned a role number or level of priority access from 0 to 7 (high to low). A user at level two can manage users with a role of 2 to 7, tapemaster super user account and users with a role of 0 can manage all user accounts

Select Users

Once you have logged into TapeTrack Lite, select “Users” from the Library Management Tasks drop-down menu.

image

Options

This will open the Options window. If required you can set the location for the log files to be written to, or leave the default. To change the default directory, click in the right of the Log File Folder and click on the button and select directory.
