Client Licensing

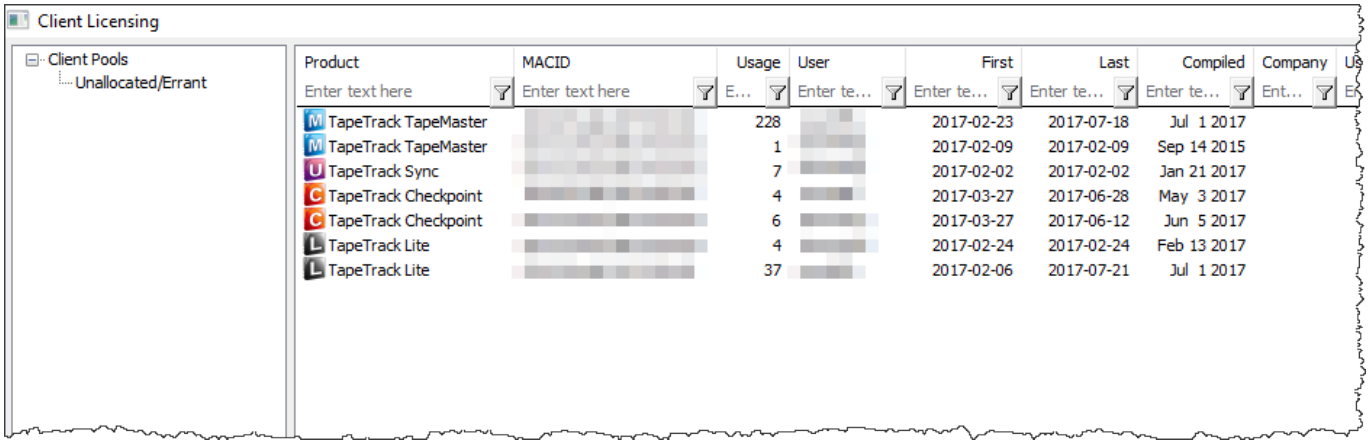

Overview

The Client Licensing feature displays a list of all TapeTrack Clients associated with the current TapeTrack Server.

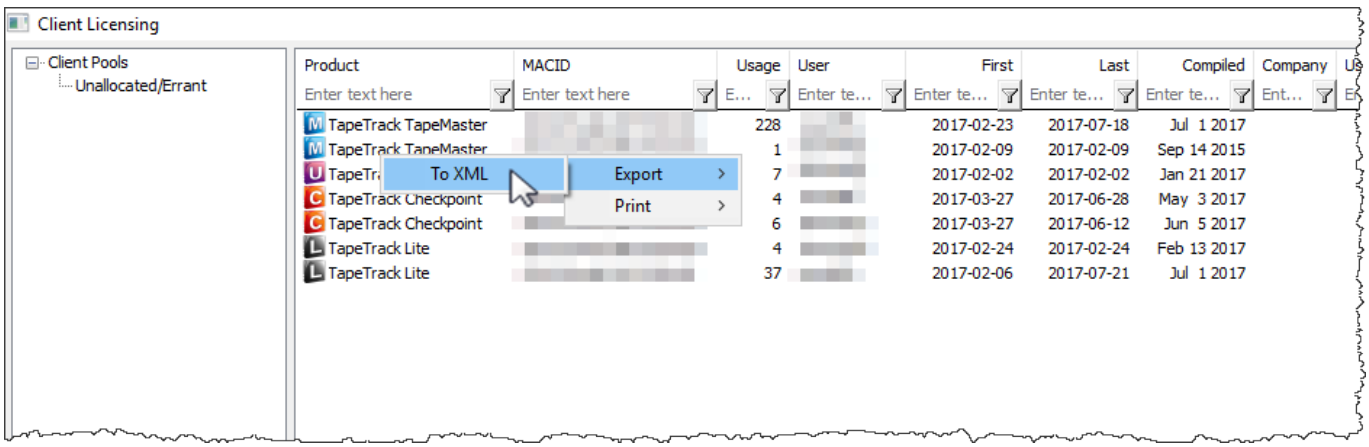

Client Licensing

The Client Licensing window displays:

- Tapetrack Software product
- MAC ID of computer associated with license
- Usage or connection count
- First access date
- Last access date
- Compile date of software
- Company details
- User Details

Right clicking selected data allows the option to export to XML file or print (selected or all).
