

Client Licensing

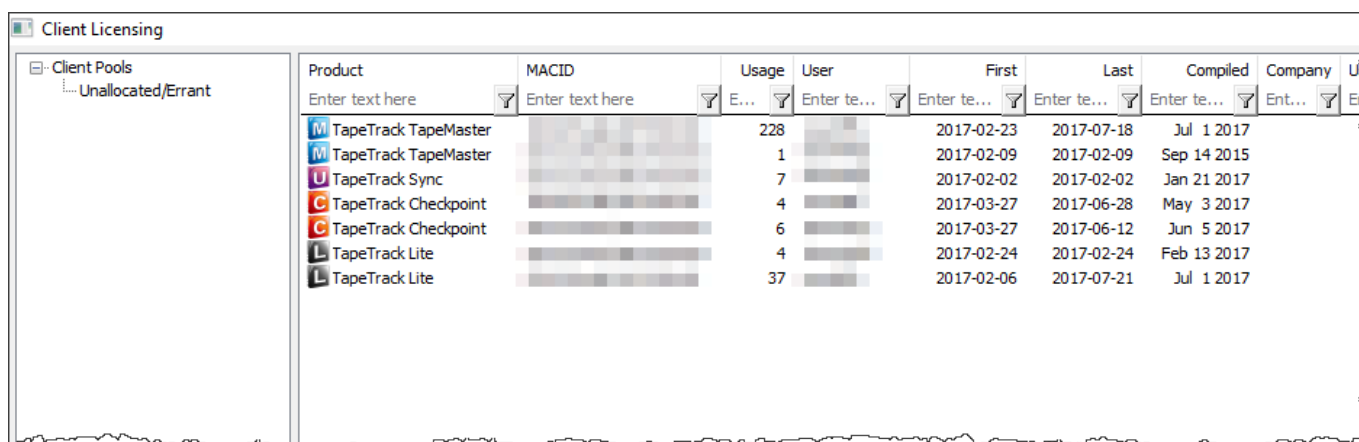

Overview

The Client Licensing feature displays a list of all TapeTrack Clients associated with the current TapeTrack Server.

Client Licensing

The Client Licensing window displays:

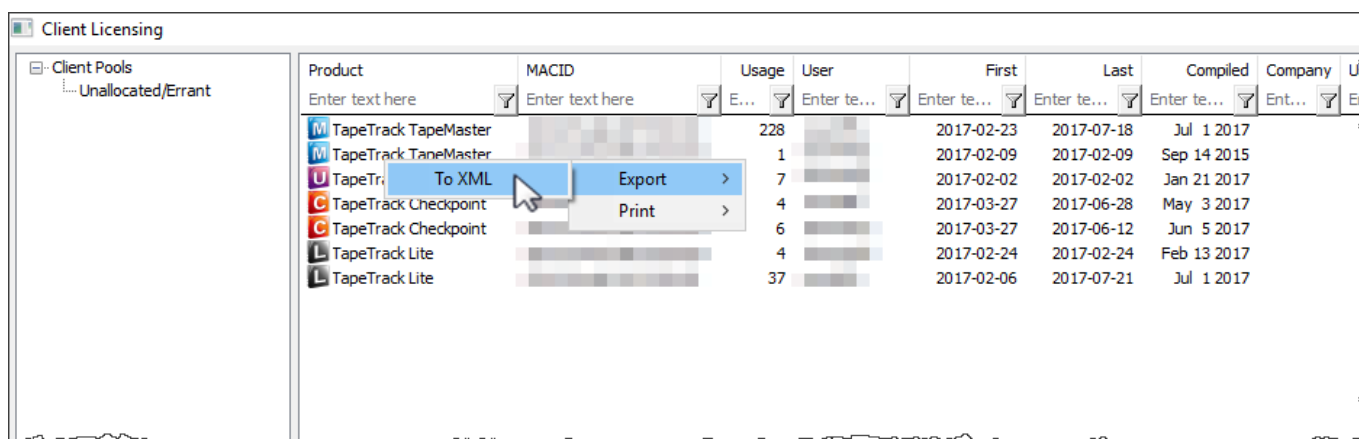

- Tapetrack Software product
- MAC ID of computer associated with license
- Usage or connection count
- First access date
- Last access date
- Compile date of software
- Company details
- User Details

The screenshot shows the 'Client Licensing' window with a sidebar on the left containing 'Client Pools' and 'Unallocated/Errant'. The main area displays a table with the following columns: Product, MACID, Usage, User, First, Last, Compiled, Company, and User. The table contains several rows of data for different TapeTrack products.

Product	MACID	Usage	User	First	Last	Compiled	Company	User
TapeTrack TapeMaster		228		2017-02-23	2017-07-18	Jul 1 2017

TapeTrack Lite		37		2017-02-06	2017-07-21	Jul 1 2017		

Right-clicking selected data allows the option to export to XML file or print (selected or all).

The screenshot shows the same 'Client Licensing' window, but with a right-click context menu open over the 'TapeTrack TapeMaster' row. The menu options are 'To XML', 'Export', and 'Print'.
