Server Options

Overview

The Server Options allow global settings for Customer, Data Clusters and Simple Management Rules in one location.

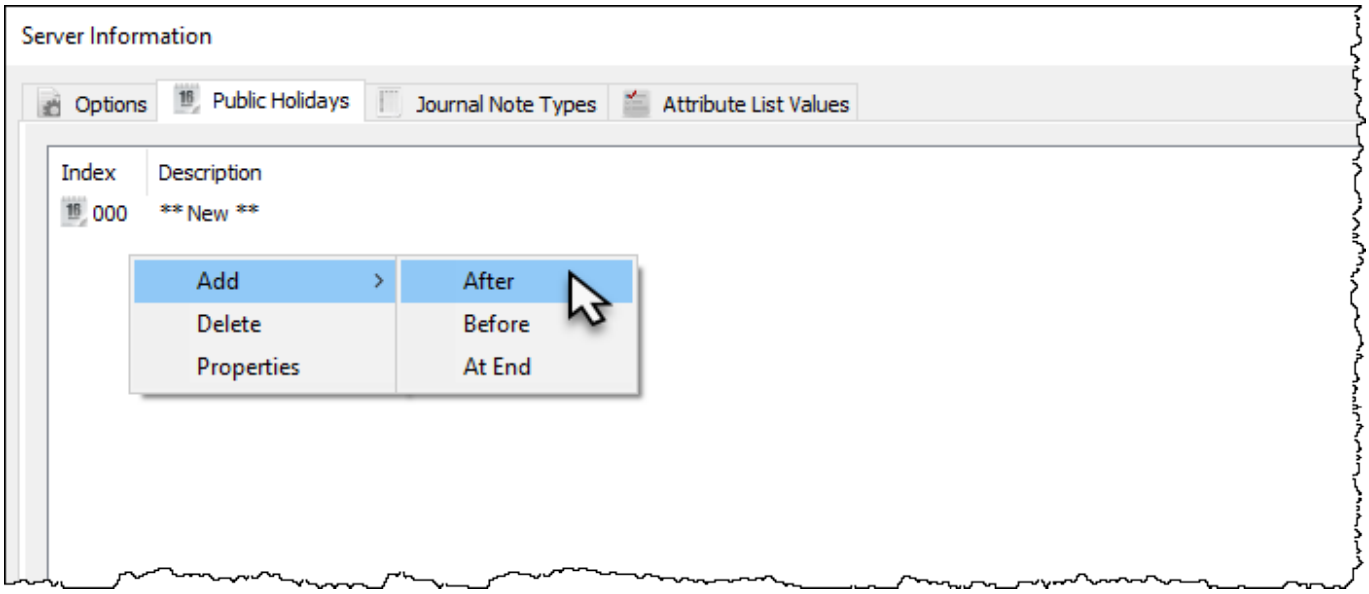

Server Options

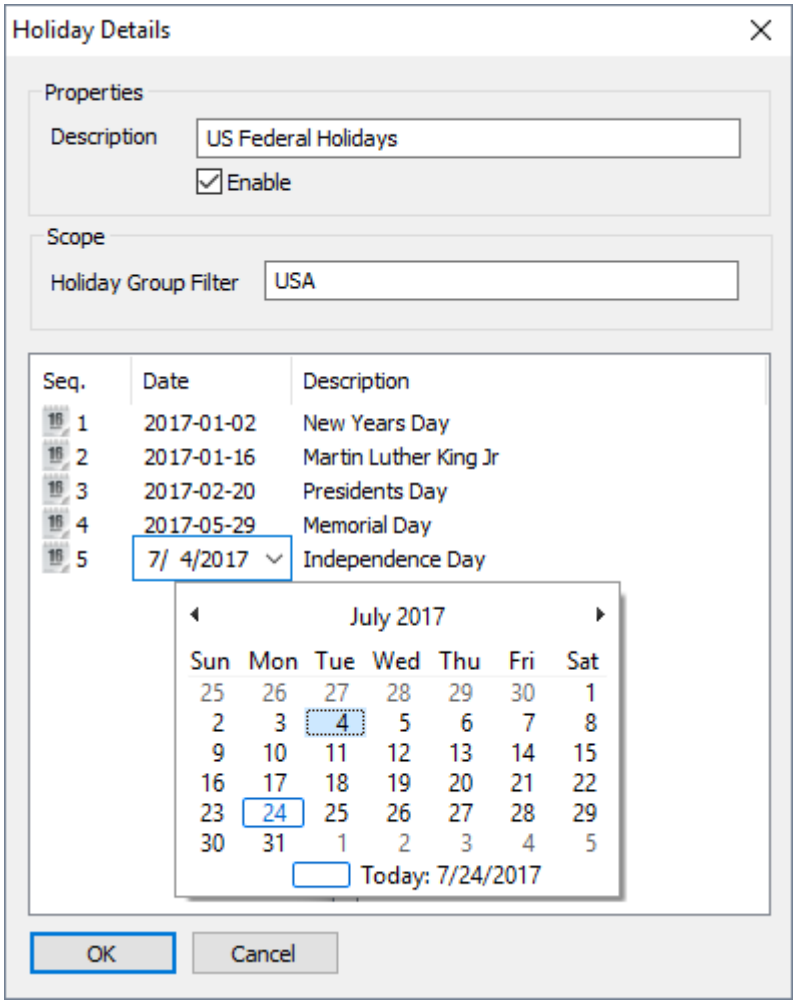

Options

Options tab allows entry for:

- Extension Characters or additional characters that can be used in identifiers such as Data Clusters
- Customer-ID Filter. Set acceptable customer ID filters to enforce format rules. e.g. ???? will force all customer ID's to be four charachters.
- Friday Weekend. Setting to true will start the weekend on Friday, false will start the weekend on Saturday.

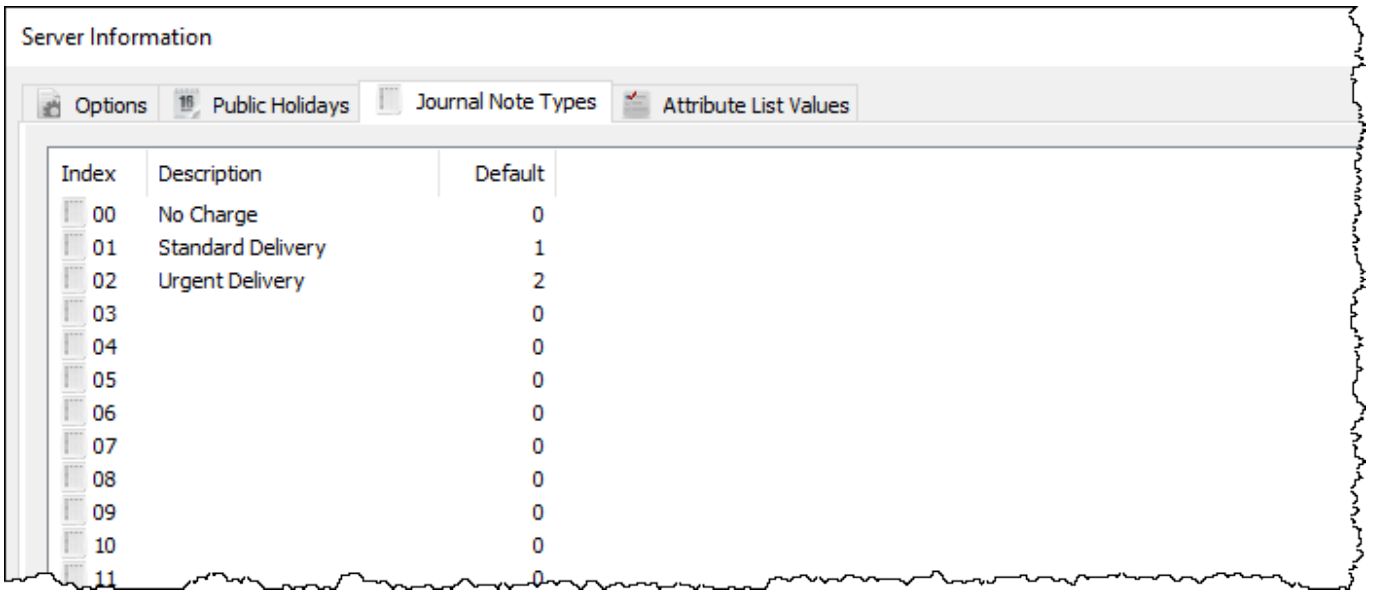

Public Holidays

Journal Note Types

Journal Note Types are used as part of billing in TapeTrack Checkpoint.
To set Journal Note Types, click in the description field next to an Index number.
