

Selecting A Container And Adding Volumes

Adding Volumes From Windows Clipboard

Copy volume ID's to your windows clipboard,

To paste in volumes you must either select a container in the same media type as the volumes or ensure copied volume ID's are **fully qualified**

Right click a container and select Properties

Open the **Container Contents** tab.

Right click and select Edit → Paste Volumes

Click Save to close window.

Adding Volumes Via Scan Window

Right click container and select Properties, or double click.

Select **Container Contents** tab.

Right click main window and select Scan to Assign Volume to open scan-in window.

Scan volumes using your preferred method.

Click X at the top right of the scan-in window to close.

Click Save to close container properties window.
