Overview

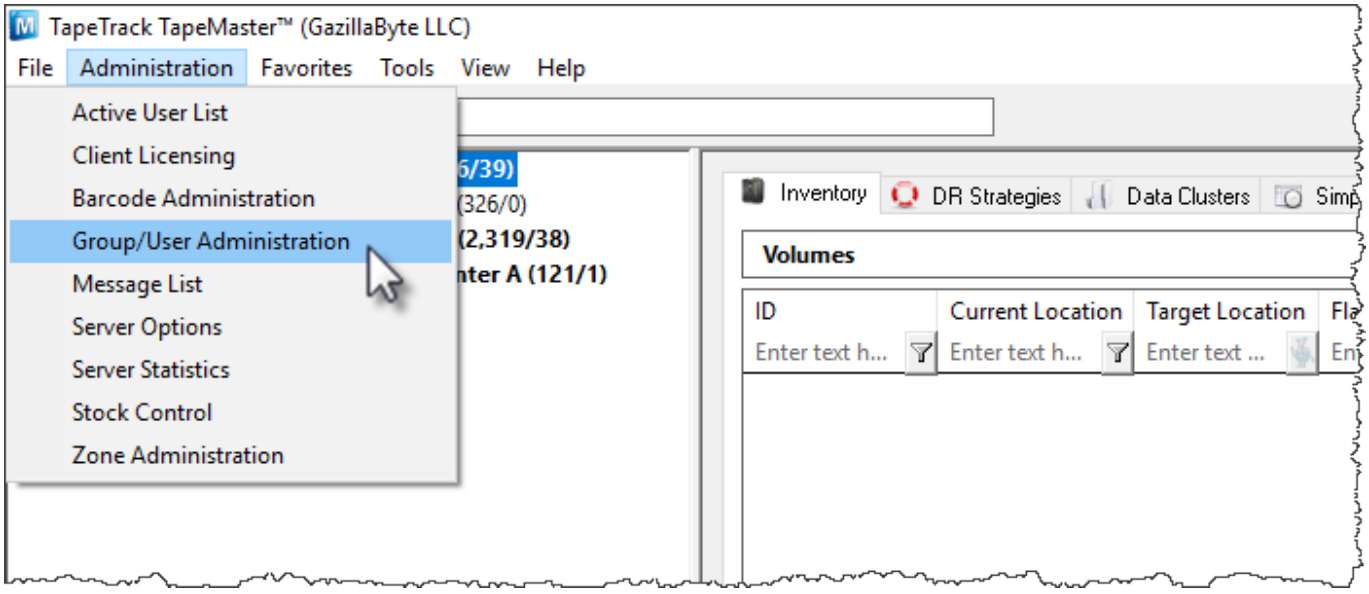

Groups are used to assign access privileges to a collection of users without the need to assign them to each user on an individual basis. This also makes it efficient to manage access changes to the entire group/s without the need to know what users belong to which group.

Creating A Group

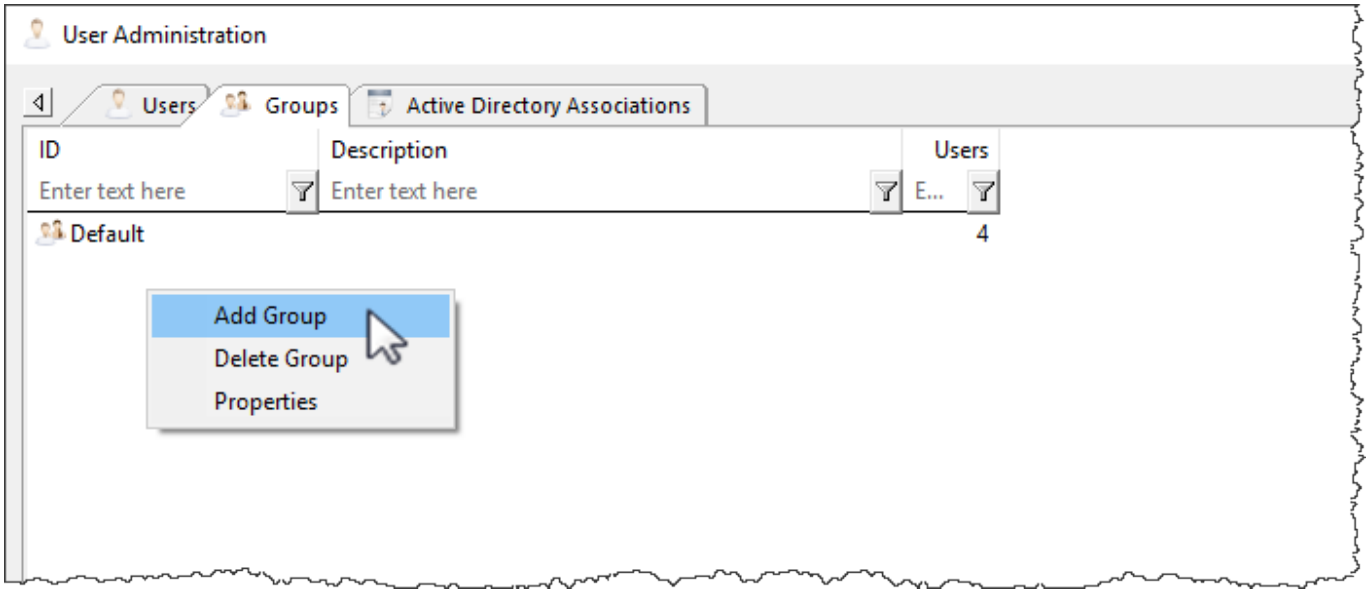

if creating a new group from the Add a New User window skip to Edit New Group

On the `Administration` drop down menu in TapeTrack TapeMaster select `Group/User Administration`.

Select the `Groups` tab and right click in the main window and select `Add Group`.

Edit New Group

Identity

in the `Identity` tab enter a unique group ID (max 10 alphanumeric characters) and a group description.
