Customer Tree

The Customer Tree provides a summary of and navigation to all of the Customers, Media Types, and Volumes on the selected Server. These Objects appear in a hierarchy of:

1. Server Node
2. Customer Node
3. Media Node

Server Node

The Server Node displays the Server Owner and Server Name, along with two numbers, the first being the total number of tapes in the TapeTrack Database, and the second total being the number of tapes in a Move Status.

Customer Node
