

Find Customer

String searches may be executed against the Customer tree to quickly find a Customer ID or description.

From the main menu select Tools → Find Customer or press the keyboard shortcut F3.

In the popup, enter the search term to match either the customer ID or description and click Find Next. [Pattern matching](#) may be used to enter partial strings or multiple search terms.

As matches are made against the search criteria, Customer ID and description will be highlighted in blue on the [customer tree](#).
