

Permanent License

A permanent license key will allow you to operate the TapeTrack software until the expiry date associated with your license occurs.

Permanent license/s to TapeTrack are restricted to those who have a written End User License Agreement (EULA) with GazillaByte.

The process of upgrading to or extending a full license involves:

- Altering the license values using TapeMaster (If upgrading from a new installation)
- Exporting the updated license file to GazillaByte to have a new license key cut
- Installing the new license config file (when received) containing your new license key.

It might take a few hours to get a new permanent license. If you need a license quickly, please follow the [Temporary License Instructions](#).

Obtaining Or Extending A Permanent License

If you are upgrading from a free license directly to a permanent license follow the instructions in the [trial license](#) section, making sure you enter the correct expiry date and not a 90 day expiry date.

If extending the expiry date on an already permanent license or upgrading from a 90 day license:

Open TapeTrack TapeMaster and login with the user name **tapemaster** (case sensitive) and leave password blank (or use your current tapemaster password if it has been changed) or current user with tapemaster rights.

From the menu click Help → Framework Server Licensing.

To preserve current license values, click **Export license to a file** and save the file with a descriptive name (e.g. `current_license.cfg`).

If you are close to your expiry date you will receive a warning about a short expiry date, click **Yes** to continue.

Change the expiry date to the new end date (1) and click **Apply license changes** (2) and **Export license to file**(3), this time saving under a different name (e.g. `license_export.cfg`).

The screenshot shows the 'TapeTrack License' window. On the left, there is a sidebar with expandable sections: 'Server Details', 'License Limits', and 'Update Statistics'. The 'Server Details' section is expanded, showing fields for Owner (GazillaByte LLC), Description (Production), License Key (TJTN-96UK-8CS8-TM43), Magic Number (10381360406993687953), and Expiry Date (Wednesday, October 25, 2017). A calendar picker is open for October 2017, with the 25th highlighted. Below the calendar, there is a 'Today: 10/3/2017' label. At the bottom of the window, there are four buttons: 'Apply license changes', 'Get temporary license', 'Export license to a file', and 'Import license from a file'. The 'OK' button is highlighted.

To reinstate current license, click Import license from a file and select the first file exported (e.g.current_license.cfg).

Click Apply license changes to reinstate your current license values.

If you have left this process until after your license has expired, rather than import your current license file, clicking Get temporary license will give a 12 day license to enable you to keep using TapeTrack until your new key is applied.

Click OK(4) to exit TapeTrack License window.

Forward the exported file (with new expiry date) to support@gazillabyte.com with a subject indicating that you require a new license key.

Once a new key has been cut you will receive a new license configuration file with instructions for installation.

 Send	To...	support@gazillabyte.com
	Cc...	
	Subject	TapeTrack -New License Request
	Attached	 license_export.cfg 258 bytes

From GazillaByte

Request for new license key for TapeTrack.

Regards,

Dean Cumming
