

Framework Server Licensing

The Framework server displays information connected with your TapeTrack license. it is also the portal for making any license information changes such as owner information, expiry date and license limits.

The server field **Description** can be altered without affecting the software key, however alteration to any other field will require you to apply for a new key.

To view details on the Framework Server License, from the main menu select Help → Framework Server License.

This will open the Framework Server License window, displaying current software license details.
