

Volume List And Repository List Display Layout

TapeMaster has the option of displaying the Repository window above or below the Inventory window depending on your preference.

Repository List Above Inventory List

Open the TapeMaster preferences by clicking File > Preferences.

Set the field Volume List Above Repository List to False and click OK to commit the data and close the window

A popup declaring a restart is required for the change to take effect will be displayed, click OK to close the window.

Close and restart TapeMaster to effect the changes.

Inventory List Above Repository List

Open the TapeMaster preferences by clicking File > Preferences.

Set the field Volume List Above Repository List to True and click OK to commit the data and close the window

A popup declaring a restart is required for the change to take effect will be displayed, click OK to close the window.

Close and restart TapeMaster to effect the changes.
