

Volume List And Repository List Display Order

TapeMaster has the option of displaying the Repository window above or below the Inventory window depending on your preference.

Repository List Above Inventory List

Open the TapeMaster preferences by clicking File > Preferences.

Set the field Volume List Above Repository List to False and click OK to commit the data and close the window

A popup declaring a restart is required for the change to take effect will be displayed, click OK to close the window.

Restart Required

A restart is required for the changed option to take effect.

Please note that the program behavior will not change until the program is restated.

OK

Close and restart TapeMaster to effect the changes.
