# Open Command Prompt

`Open Command Prompt` menu items allow you to open a Windows command prompt, either as an administrator or user level permissions.

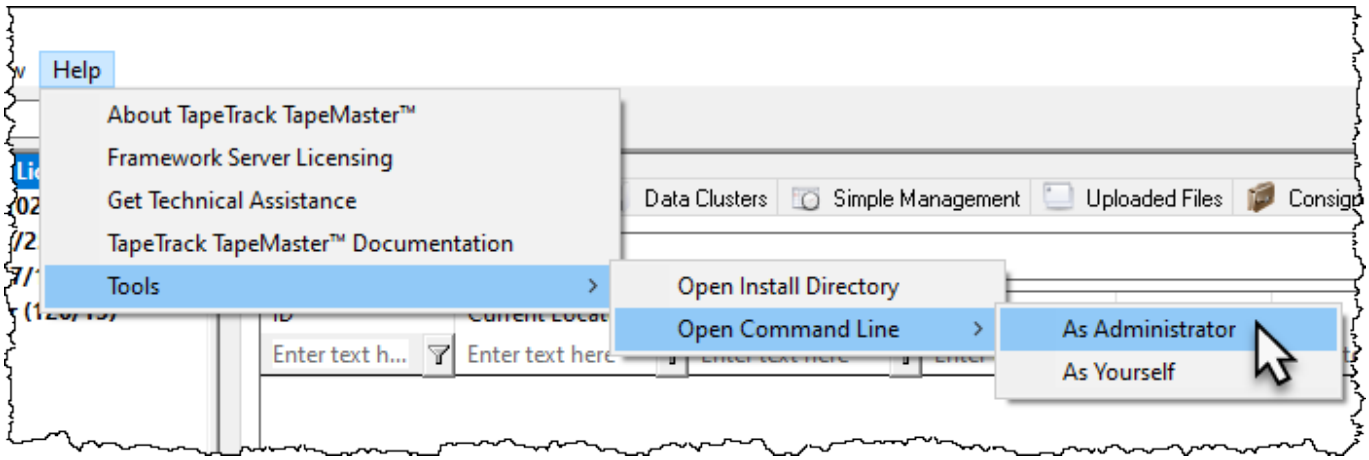

## Open Administrator Command Prompt

To open an administrative command prompt, select from the main menu `Help` > `Tools` > `Open Command Prompt` > `As Administrator`

## Open User Command Prompt

To open a command prompt, select from the main menu `Help` > `Tools` > `Open Command Prompt` > `As Yourself`
