Remove Volumes From Container

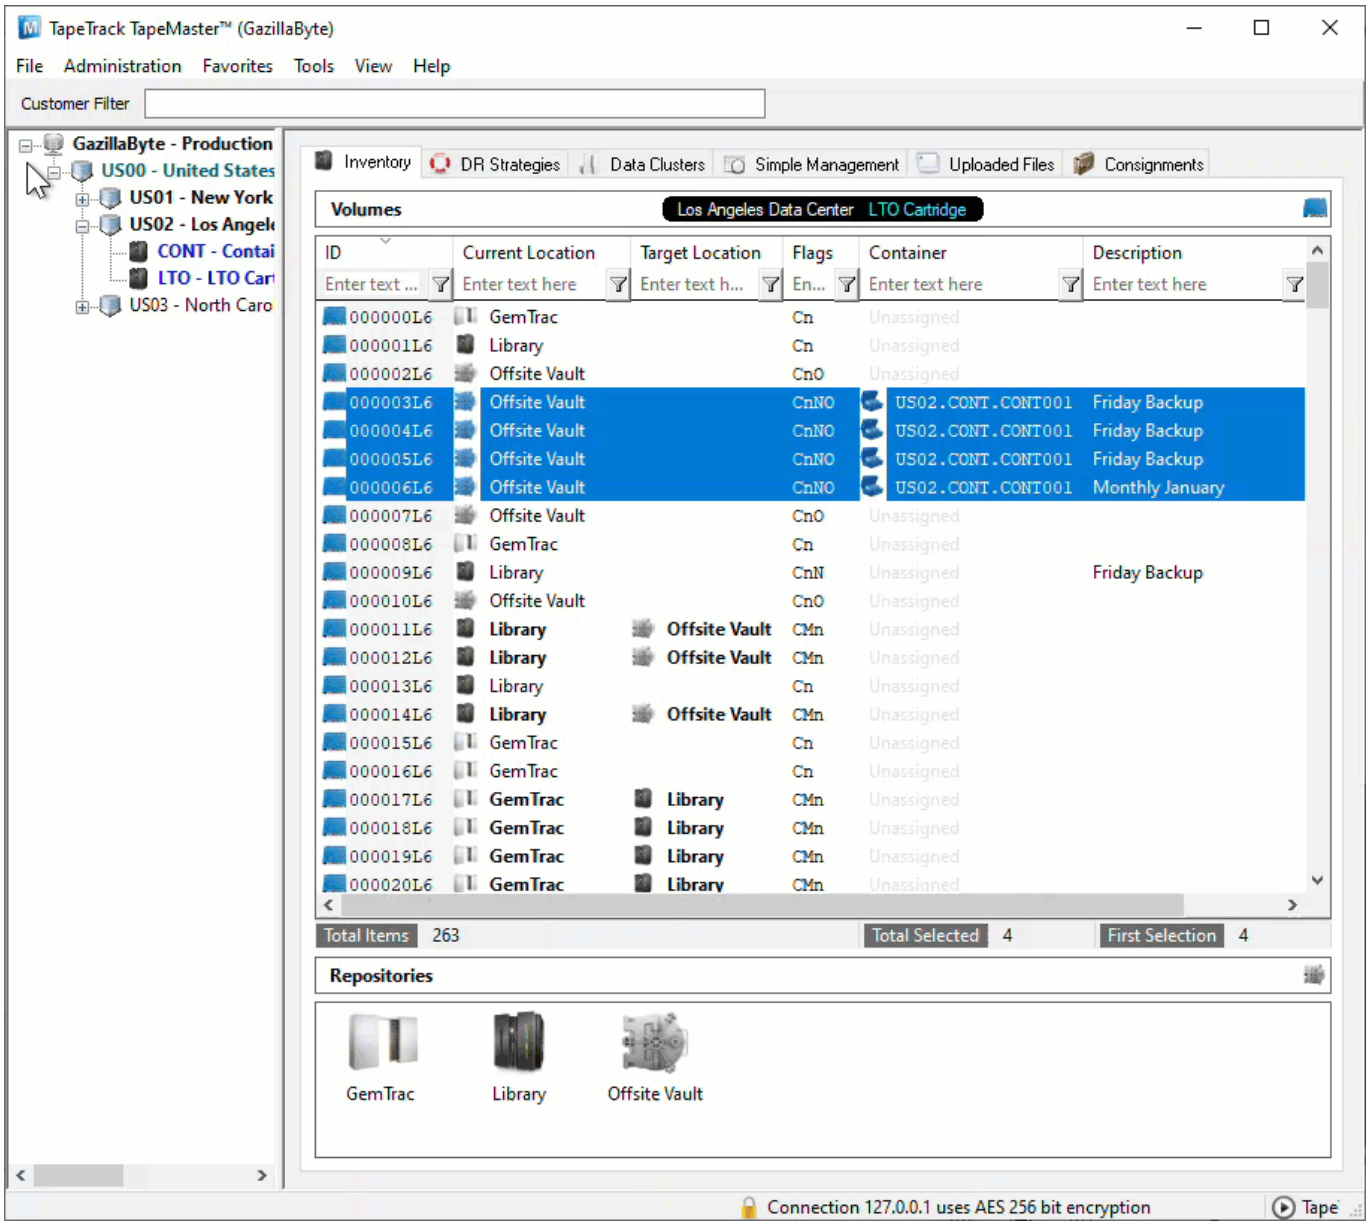

Remove Volumes Via The Volume Media Inventory Window

master_volume_from_container.mp4

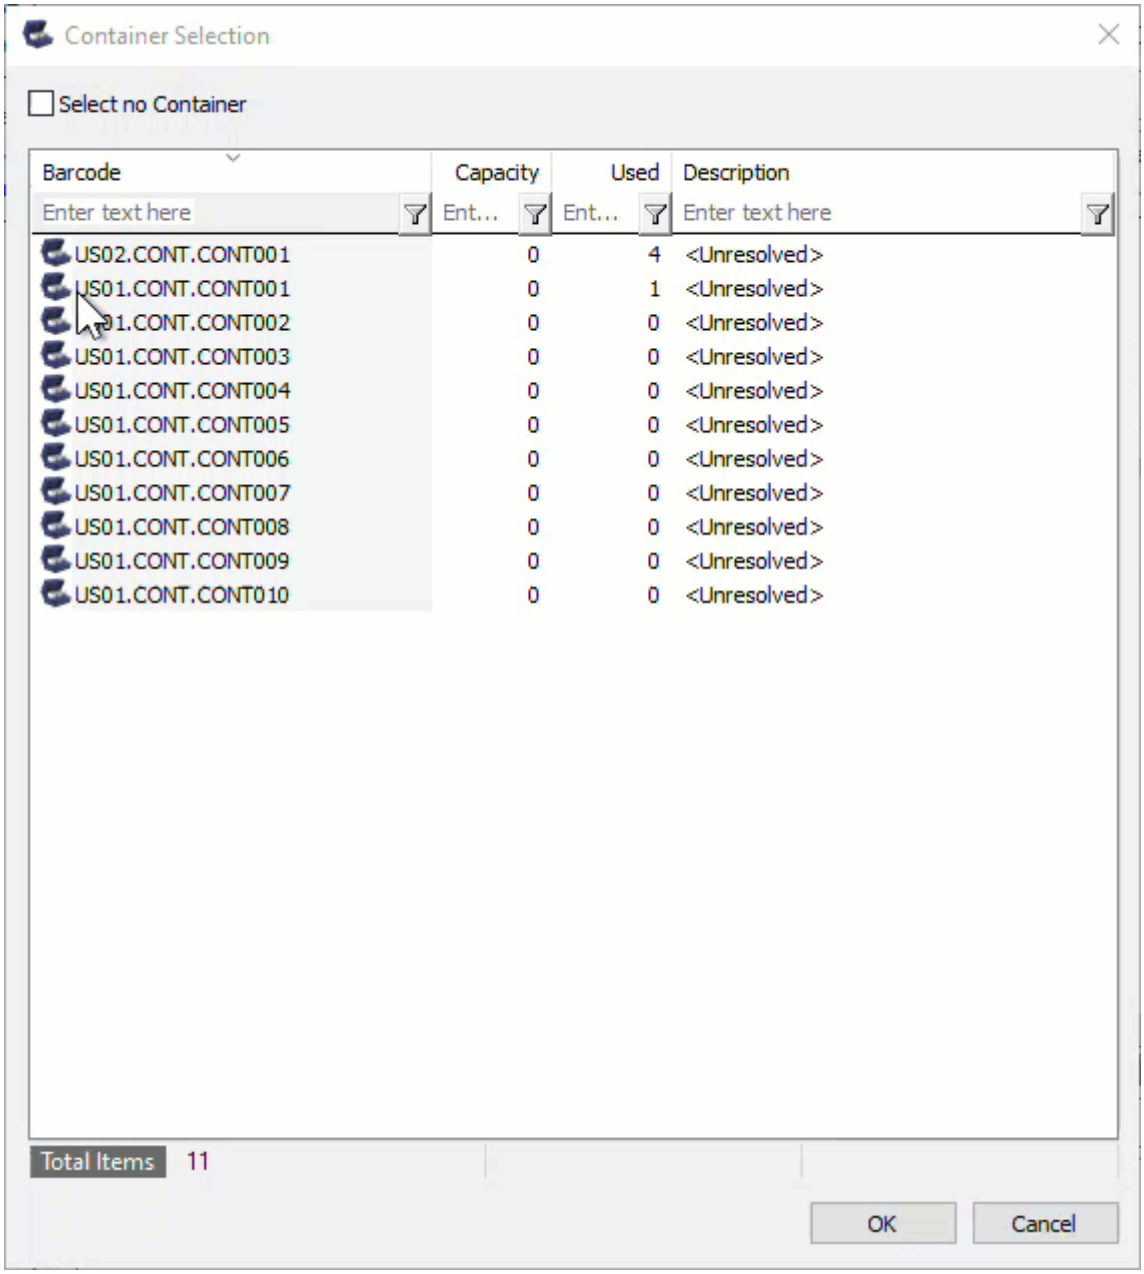

Select a volume or range of volumes (Shift+Click and or Ctrl+Click) from the inventory window to remove from container/s. Volumes assigned to different containers can be selected and removed at the same time, there is no need to select one container at a time.

Right click on the highlighted Volumes and select `Special Operations` > `Modify` > `Assign to new/no container`

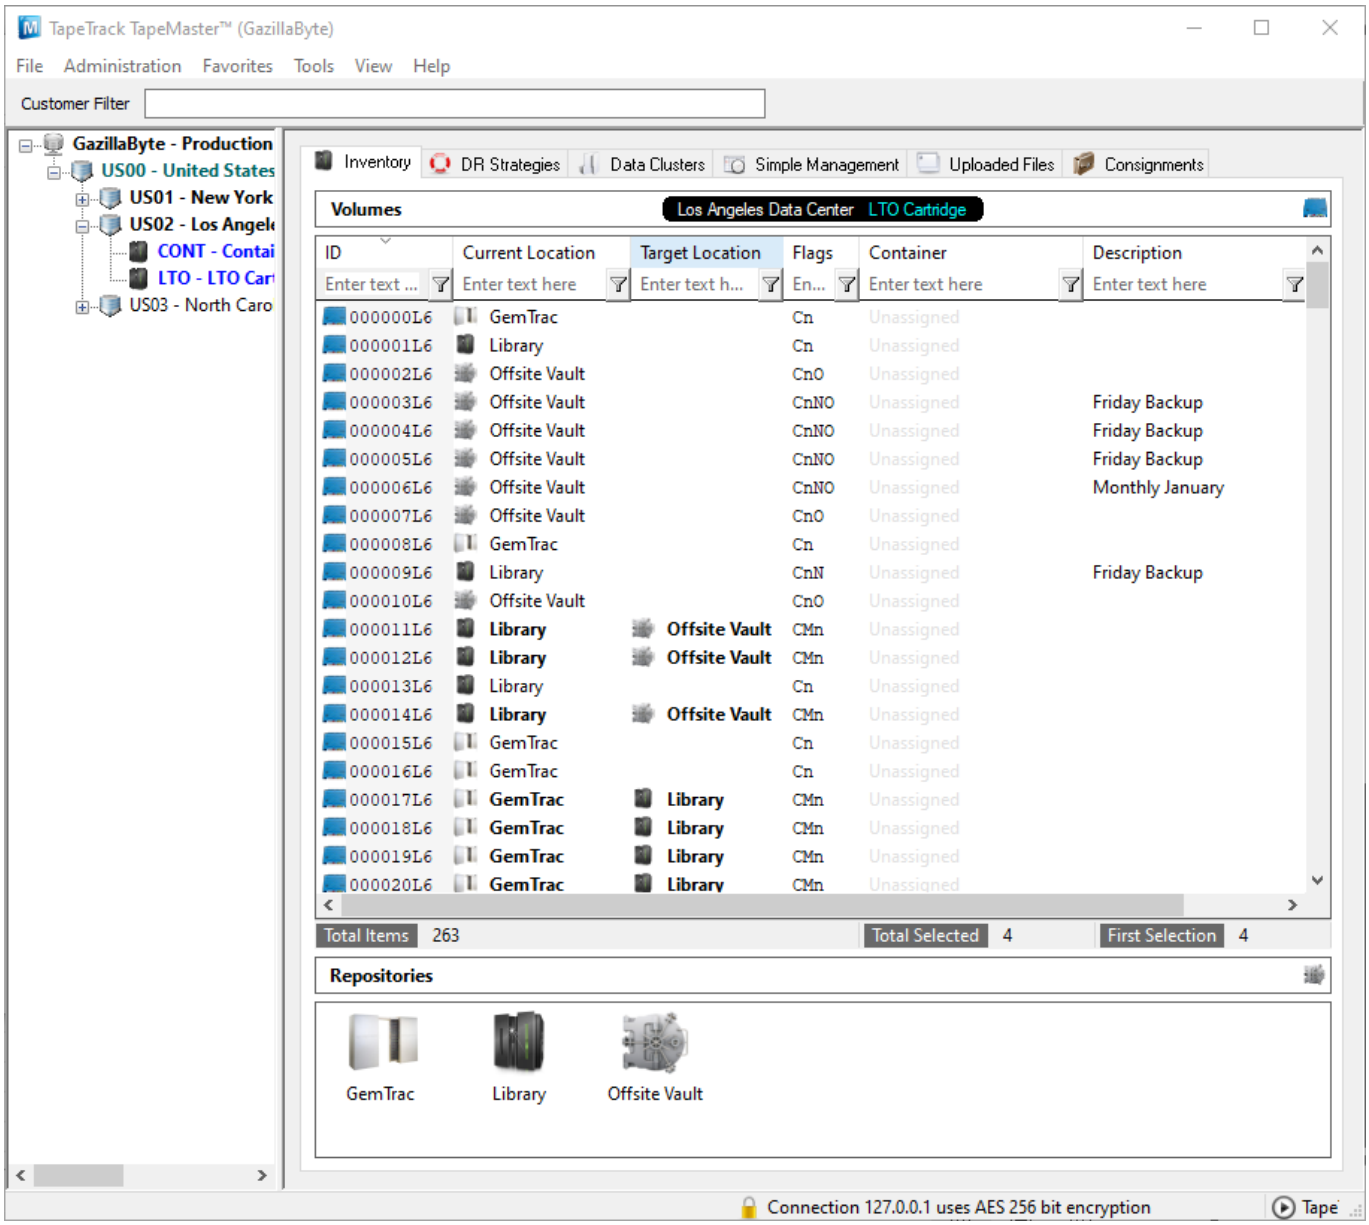

From the **Container Selection** window check the `Select No Container` checkbox at the top left. This will remove the displayed containers.

Click **OK** to remove the Volumes from the assigned containers and exit back to the inventory window.

TapeMaster will now display the Volumes with no assigned containers.

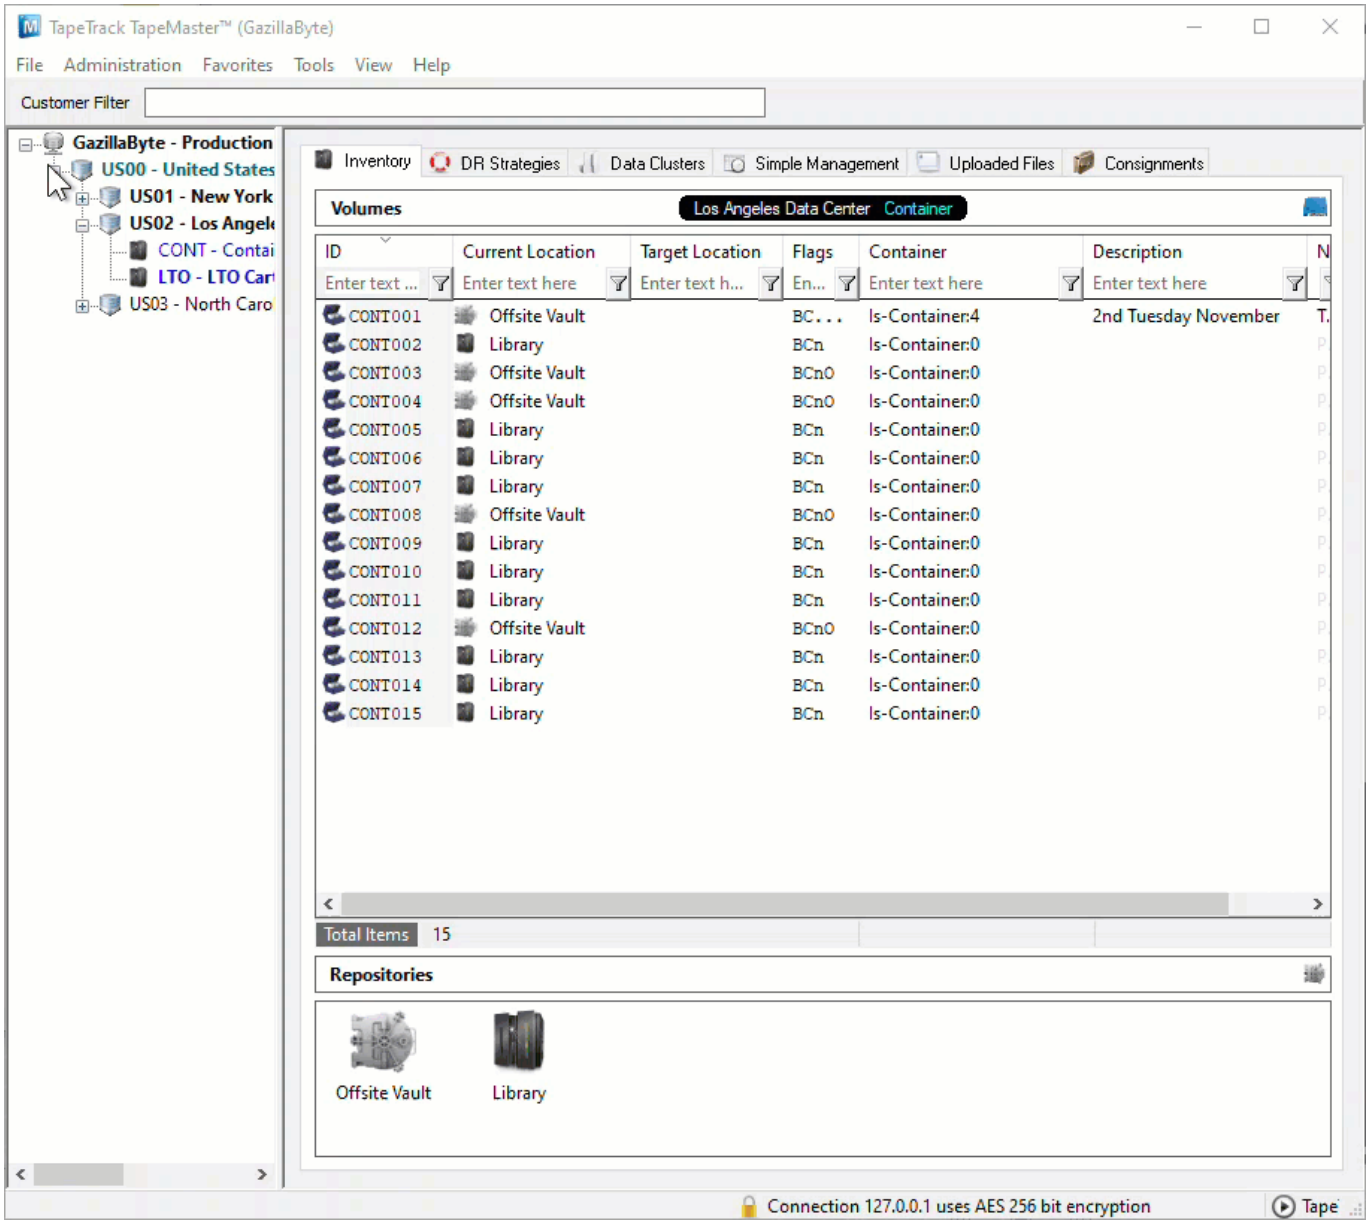

Remove Volumes Via The Container Media Inventory Window

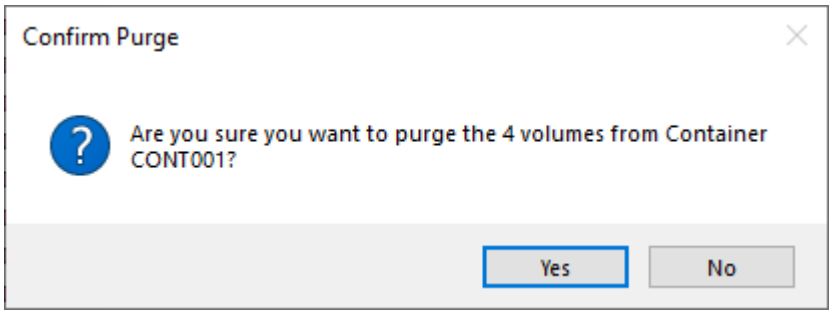

Purge Container Contents

Right click on the Container you want to remove the Volumes from and select `Special operations` > `Container` > `Purge`.

Multiple Containers can be purged together by selecting them, using Shift+Click or Ctrl+Click, before right clicking and selecting `Special operations` > `Container` > `Purge`.

Then click Yes to **Confirm purge** popup.

Remove Volumes Via The Container Properties Contents Tab

Right click and select `Properties`, or double click, the required container.

Select the `Container Contents` tab.

Select the required volume/s from the displayed list, right-click highlighted volumes and click Remove

`From Container` and Save to close window.
