

Adding and Deleting Repositories

Overview

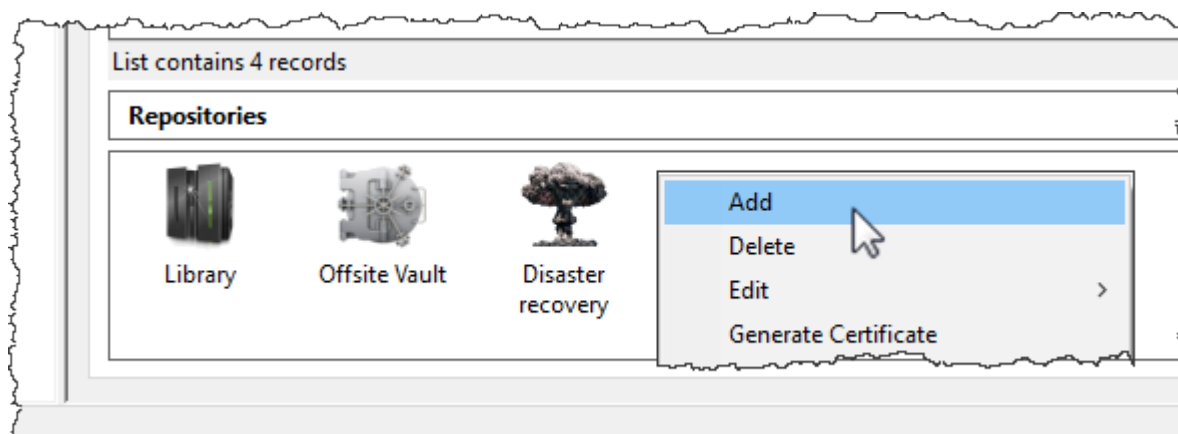

Repositories are locations where Volumes can be located. This page contains information about Adding and Deleting Repositories.

Adding a Repository

To add a Repository, right-click on the Media Type that the Repository will be listed under and select Add Repository.

or right click in the repository window and select Add.

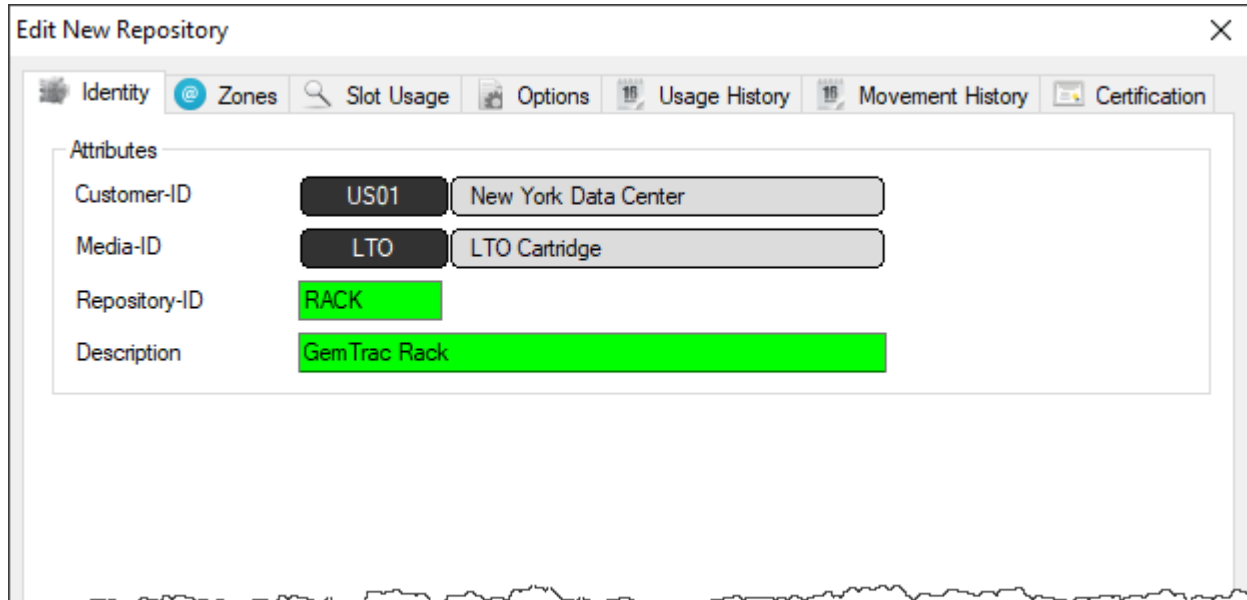

This will launch Edit New Repository window.

Repository Options

Identity tab

Insert the Repository ID (up to 4 permanent alphanumeric characters) and repository description (up to 20 alphanumeric characters)

The screenshot shows the 'Edit New Repository' dialog box with the 'Identity' tab selected. The 'Attributes' section contains the following fields:

Attribute	Value
Customer-ID	US01 New York Data Center
Media-ID	LTO LTO Cartridge
Repository-ID	RACK
Description	GemTrac Rack

Deleting a Repository

To delete a Repository, right-click on the Repository that needs to be deleted and select Delete.

Note: There must not be any Volumes in this Repository in order to delete it.
