

View Repository Usage Map

The View Repository Usage Map function allows you to view which [Zones/Slots](#) are allocated to the selected [Repository](#) as well as which [Slots](#) are occupied, vacant, reserved or blocked.

Right-clicking the window allows:

- Apply Updates
- Assignment Helper
- Confirm
- Edit
 - Paste Volume List To [Slots](#) (Ctrl+ V)
- Export
- Refresh
- Reset
- Scan
 - [Scan To Assign](#)
 - Scan To Assign (with Speech)
- Slot Management
 - [Block](#)
 - [Unblock](#)

[update doco](#), [repository](#), [slot](#), [zone](#)
