

View Repository Map

The **View Repository Map** function allows you to view which zones/slots are allocated to the selected repository as well as which slots are occupied, vacant, reserved or blocked.

Right-clicking the window allows:

- **Apply Updates**
- **Assignment Helper**
- **Confirm**
- **Edit**
 - **Paste Volume List To Slots (Ctrl + V)**
- **Export**
- **Print**
 - **All**
 - **Selected**
- **Refresh**
- **Scan To Assign**
- **Slot Management**
 - **Block**
 - **Unblock**
