

Scan to Select Volumes

Right-hand click in the Volume Window of TapeMaster.

Select Special Operations → Scan → Scan to Select.

Scan the volumes, using your preferred [scanning method](#), you wish to select.

All volumes present in the inventory will display **Request OK** in the scan window, any volumes not present in the inventory will display **Unknown Volume-ID**.

Exit from the Scan Window by clicking the X at the top right.

If you have any scan errors, the **Failed Operations** window will display the unknown volumes, as well as all successful scans if the Display Results That Were OK checkbox is checked. From this window you can:

- Copy volume ID's to clipboard.
- Export volume ID's to file.

Exit Failed Operations by closing window by clicking OK or X at the top right.

Use the drop-down in the results window select:

- Display All (with found items selected).
- Display Only Selected.
- Display Only Not Selected.
