Volume Global View

Volume Global View allows you to view and/or search volumes across all customers and media types within the one report.

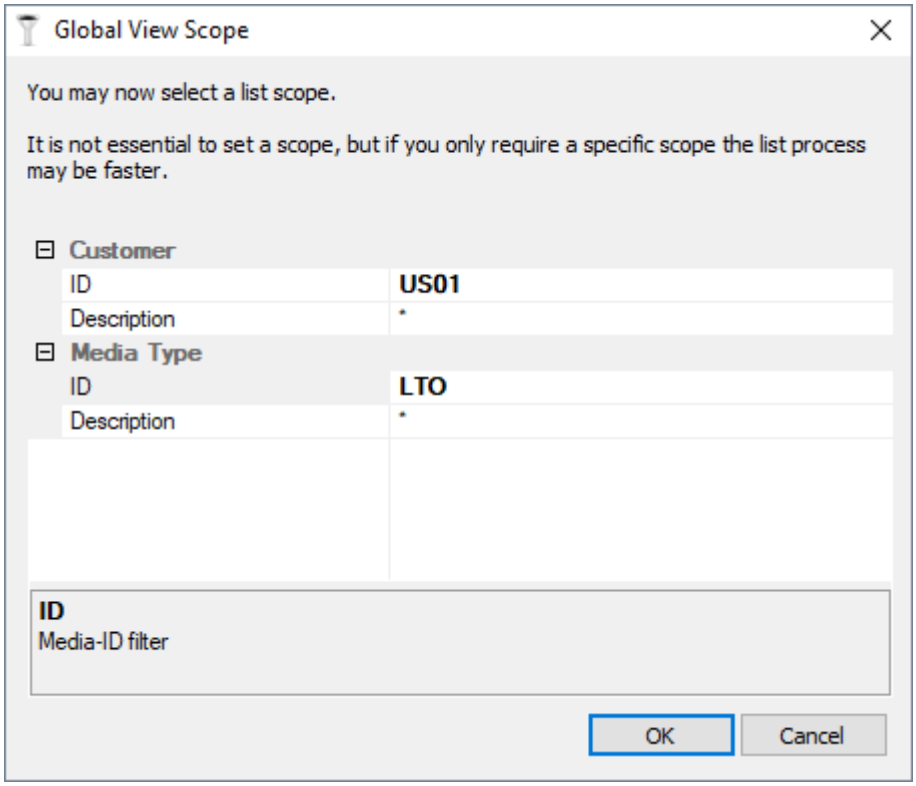

To open **Volume Global View** select from the main menu `Tools` → `Volume Global View`.

The **Global View Scope** window opens with wildcard (*) values for each search field by default which will include every volume within TapeTrack in the report.

The output results can be focused at this stage if a more refined report is preferred by using String Filters on the Customer ID or Description field and/or the Media ID or Description field.

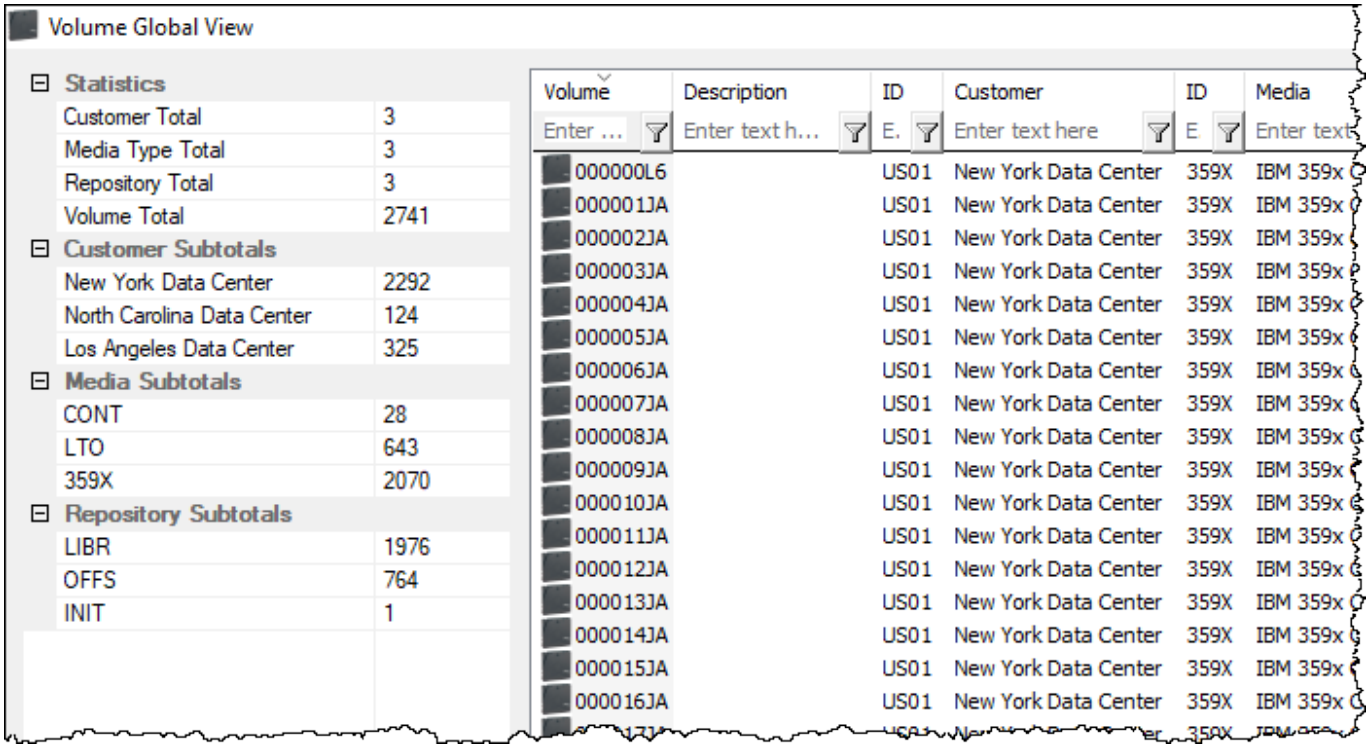

Click 0K to continue to the **Volume Global View**.

The left of the window displays:

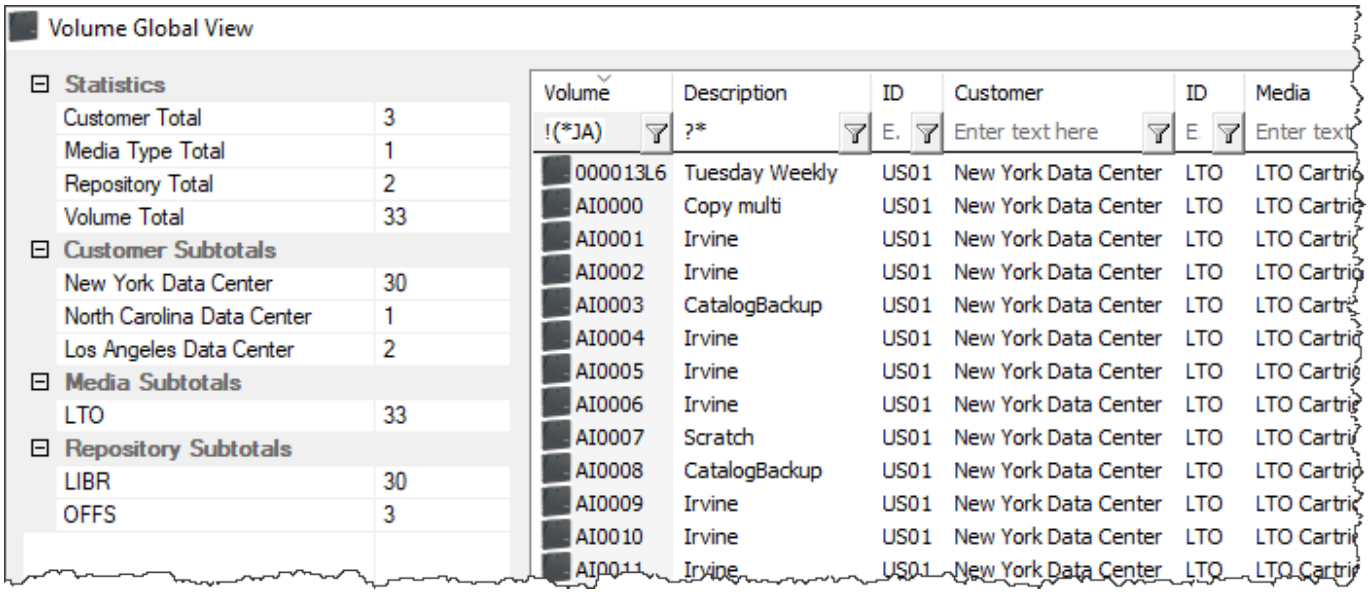

- **Statistics**
  - Customer Total: Number of Customer ID's
  - Media Type Total: Number of unique Media types (Each Customers LTO media type counted as one type).
  - Repository Total: Number or unique Repositories (Each Customers OFFS repository type counted as one type).
  - Volume Total: Number of volumes across all Customer ID's.
- **Customer Subtotals**: Total number of volumes per Customer ID.
- **Media Subtotals**: Volume subtotals grouped by Media type.
- **Repository Subtotals**: Volume subtotals grouped by Repository type.

The right of the widow displays the:

- Volume ID
- Description
- Customer ID
- Customer Description
- Media ID
- Media Description
- Repository ID
- Repository Description
- Flags
- Next Move Date
- Last Move Date
- Expiry Date
- Last Write Date

Displayed fields can be ordered by clicking on the field name and by using String filters in the fields under column headings. As the reults are filtered both the volume display and the subtotals on the left will be updated.

Cilck the X in the top right corner to exit.
