

# Volume Global View

Volume Global View allows you to view and/or search [Volumes](#) across all [Customers](#) and [Media types](#) within the one report.

To open **Volume Global View** select from the main menu Tools → Volume Global View.

The **Global View Scope** window opens with wildcard (\*) values for each search field by default which will include every [Volume](#) within TapeTrack in the report.

The output results can be focused at this stage if a more refined report is preferred by using [String Filters](#) on the [Customer-ID](#) or [Customer Description](#) field and/or the [Media-ID](#) or [Media Description](#) field.

The Attribute Index allows the selection of which [Extended Attribute](#) to display in the report (Description or Attribute 0 is the default value).

Only results that meet all filters will be displayed.

| Global View Scope                                                                                                                                |      |
|--------------------------------------------------------------------------------------------------------------------------------------------------|------|
| You may now select a list scope.<br>It is not essential to set a scope, but if you only require a specific scope the list process may be faster. |      |
| <input checked="" type="checkbox"/> Customer                                                                                                     |      |
| ID                                                                                                                                               | US01 |
| Description                                                                                                                                      | *    |
| <input checked="" type="checkbox"/> Media Type                                                                                                   |      |
| ID                                                                                                                                               | LTO  |
| Description                                                                                                                                      | *    |
| Attribute Index                                                                                                                                  | 1    |
| <div>OK Cancel</div>                                                                                                                             |      |

Click OK to continue to the **Volume Global View**.

The left of the window displays:

- **Statistics**

- Customer Total: Number of [Customer-ID's](#).
- Media Type Total: Number of unique Media types (Each Customers LTO media type counted as one type).
- Repository Total: Number or unique Repositories (Each Customers OFFS repository type counted as one type).
- Volume Total: Number of [Volumes](#) across all [Customer-ID's](#) .

- **Customer Subtotals:** Total number of [Volumes](#) per [Customer-ID](#).

- **Media Subtotals:** [Volume](#) subtotals grouped by Media type.

- **Repository Subtotals:** [Volume](#) subtotals grouped by Repository type.

The right of the widow displays the:

- [Volume-ID](#)
- Description or [Extended Attribute](#)
- [Customer-ID](#)
- [Customer Description](#)
- [Media-ID](#)
- [Media Description](#)
- [Repository-ID](#)

- [Repository Description](#)
- [Flags](#)
- Next Move Date
- Last Move Date
- Expiry Date
- Last Write Date
- Last Update - Time
- Last Update - User
- Last Update - Program
