

Volume Global View

Volume Global View allows you to view and/or search [volumes](#) across all [customers](#) and [media](#) types within the one report.

To open **Volume Global View** select from the main menu Tools → Volume Global View.

The **Global View Scope** window opens with wildcard (*) values for each search field by default which will include every [Volume](#) within TapeTrack in the report.

The output results can be focused at this stage if a more refined report is preferred by using [String Filters](#) on the [Customer ID](#) or [Customer Description](#) field and/or the [Media ID](#) or [Media Description](#) field.

The Attribute Index allows the selection of which [Extended Attribute](#) to display in the report (Description or Attribute 0 is the default value).

Only results that meet all filters will be displayed.

Global View Scope
✕

You may now select a list scope.

It is not essential to set a scope, but if you only require a specific scope the list process may be faster.

☒ Customer	
ID	US01
Description	*
☒ Media Type	
ID	LTO
Description	*
Attribute Index	1

Click OK to continue to the **Volume Global View**.

The left of the window displays:

- **Statistics**

- Customer Total: Number of [Customer ID's](#)
- Media Type Total: Number of unique Media types (Each Customers LTO media type counted as one type).
- Repository Total: Number or unique Repositories (Each Customers OFFS repository type counted as one type).
- Volume Total: Number of [Volumes](#) across all [Customer ID's](#) .

- **Customer Subtotals:** Total number of [Volumes](#) per [Customer ID](#).

- **Media Subtotals:** [Volume](#) subtotals grouped by Media type.

- **Repository Subtotals:** [Volume](#) subtotals grouped by Repository type.

The right of the widow displays the:

- [Volume ID](#)
- Description or [Extended Attribute](#)
- [Customer ID](#)
- [Customer Description](#)
- [Media ID](#)
- [Media Description](#)
- [Repository ID](#)

Export

To export results from the Volume Global View, select the required volumes and right-click Export.

Then select the output format from:

- Comma Delimited File (CSV)
- Microsoft Excel
- Text file
- XML File

Click Select All if you want to select all volumes for export. By default the **Open file when export is complete** is checked, uncheck if you do not want the file to open on export.

Click OK to export or Cancel to abort the process.

Click the X in the top right corner to exit.
