Search For Volume

Search for Volume function allows a global search for Volume/s based on search criteria including Customer-ID, Media-ID, Volume-ID, Description, Current Repository and Target Repository.

To open the Search for Volume function, select from the main menu, `Tools` → `Search for Volume`

In the filter fields enter search information to focus results as required. Click `Search` to execute.

From the Volume Filter window, the right-click menu options are:

- **Edit**
  - Copy

        - Unqualified Volumes (e.g. 000013L6)
        - Unqualified Volumes (without suffix) (e.g. 000013)
        - Volumes (e.g. US01.LTO.000013L6)
- **Export**
    - To File
- **Select**
    - All
    - Invert
