

90 Day Trial License

A 90 day trial license allows a fully functional installation of TapeTrack to evaluate the software to ensure it is the correct tool to manage your backup volumes.

To Upgrade your free license to a 90 day trial license:

While logged to in TapeMaster as [tapemaster](#), or [user-ID with tapemaster rights](#)

From the menu click Help → Framework Server Licensing

If the menu option **Framework Server Licensing** is grayed out and inaccessible, you do not have sufficient privileges (tapemaster rights) to alter the software license

In the TapeTrack License window change the default values to your preferred details:

Server Details

Change Owner (A) from ACME Corp to your company name (e.g. **GazillaByte LLC**)

Change description (A) value to something more relevant (e.g. **Production**)

Set Expiry Date (B) to new expiry (e.g. 90 days from today)

License Limits

Change Volumes (C) to desired number (0 = unlimited)

The screenshot shows the 'TapeTrack License' window. It has a close button (X) in the top right corner. The window is divided into three main sections: 'Server Details', 'License Limits', and 'Update Statistics'. The 'Server Details' section contains a table with the following information:

Server Details	
Owner	GazillaByte LLC
Description	Production
License Key	T6E5-NSDT-85KC-FD43
Magic Number	1194016902752965329
Expiry Date	Saturday, August 12, 2017
License Status	OK

The 'License Limits' section contains a table with the following information:

License Limits	
Users	0
Customers	0
Volumes	0

The 'Update Statistics' section is a button labeled 'Update Statistics'.

Three purple circles with white letters are overlaid on the image: 'A' is next to the 'Owner' field, 'B' is next to the 'Expiry Date' field, and 'C' is next to the 'Customers' field.

Exporting License

Once all changes have been made, click **Apply license changes** and **Export license** to a file to export updated license file with a known name (e.g. license_export.cfg) and location.

Check the information in the config file (license_export.cfg) by opening in Notepad or similar text editor and check all information has been updated and is correct. If it is not correct, delete the file and repeat the above steps with correct information.

The screenshot shows a Notepad window titled 'license_export.cfg - Notepad'. The window has a menu bar with 'File', 'Edit', 'Format', 'View', and 'Help'. The text inside the window is as follows:

```
license :
{
  owner = "GazillaByte LLC";
  description = "Production";
  key = "T6E5-NSDT-85KC-FD43";
  magic_number = "1194016902752965329";
  expiry = "Aug 12 2017";
  limits :
  {
    users = 0;
    customers = 0;
    volumes = 0;
  };
};
```

Click on **Get Temporary License** to temporarily extend the expiry date until you install the new license key.

Forward this file to support@gazillabyte.com with a subject indicating that you require a new license key. Once a new key has been cut you will receive a new license config file with instructions for installation.
