Upload Files Tab

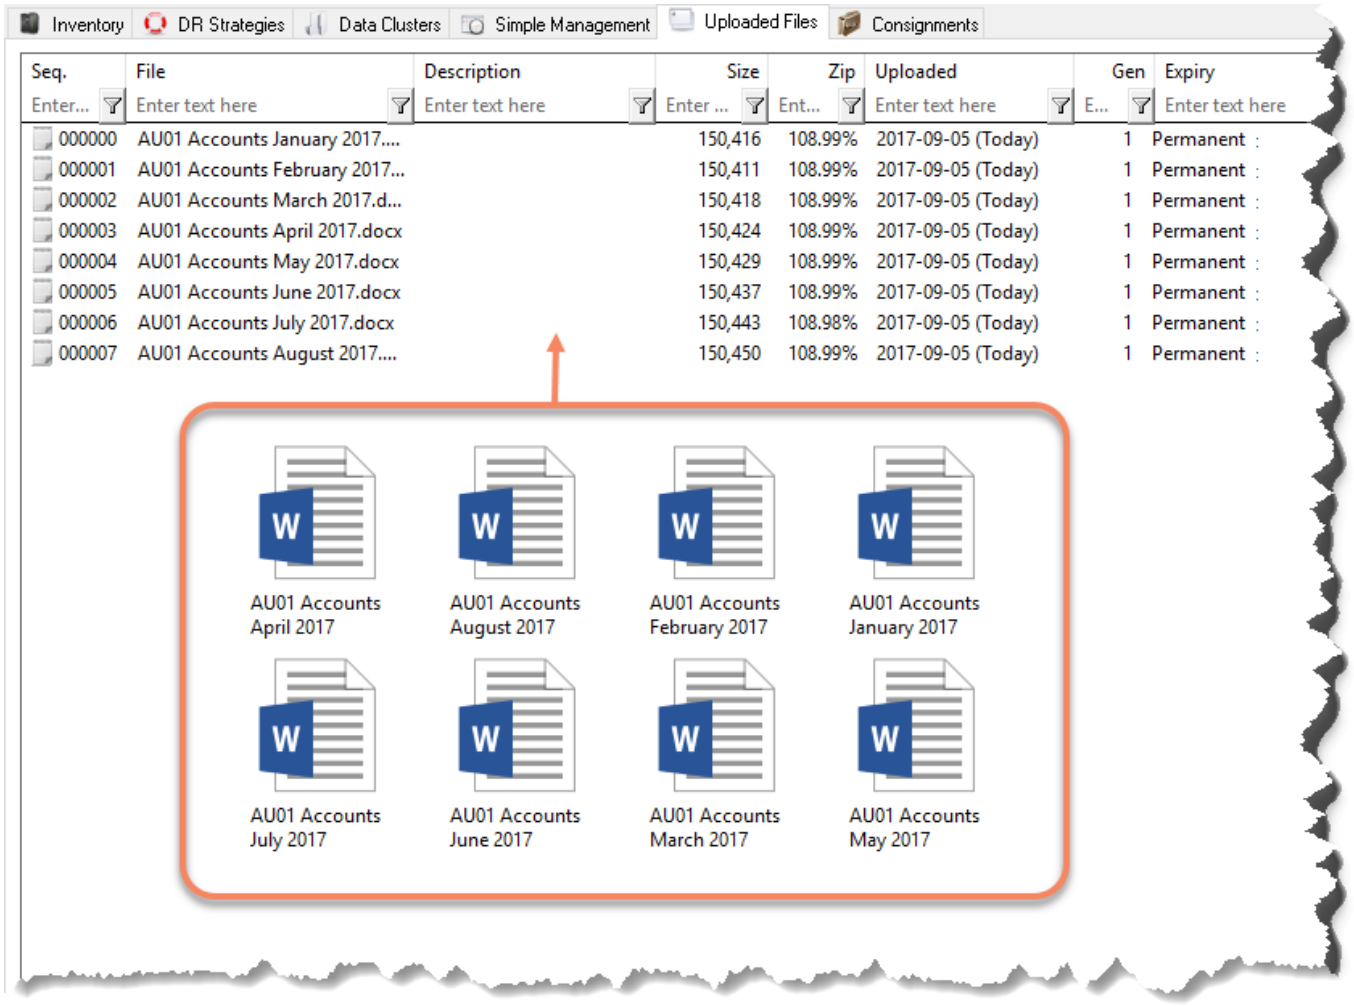

The **Uploaded Files Tab** provides an interface for uploading and downloading files to and from the TapeTrack Server so that they can be accessed by any TapeTrack Client connecting to the selected Customer.

Seq.	File	Description	Size	Zip	Uploaded	Gen	Expiry
000000	AU01 Accounts January ...		150,416	108.99%	2017-09-05 (Today)	1	Permanent

Uploading Files

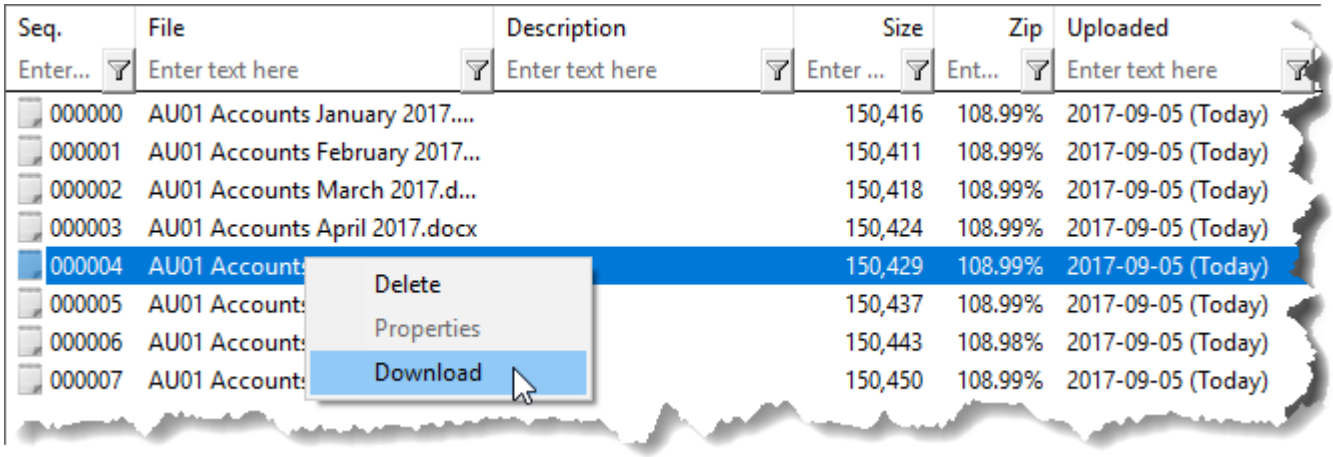

To add files to the Uploaded Files tab, drag and drop the files from Windows Explorer into the Upload Files Tab.

Right-Click Functions

Right-clicking in the Uploaded Files Tab provides three options:

- **Delete**: Deletes the selected files.
- **Properties**: Displays details pertaining to the selected file.
- **Download**: Downloads the selected file to your computer.
