

Date Aging - Last Mount

Displays a table and bar graph of selected **Volumes** last mount date and time.

Selecting Volumes for Display

Select all **Volumes** by right-clicking in the Inventory window and select **Select→All**, or using shift+click and/or control+click select the range of **Volumes** required.

Display Last Mount

Right-click the selected **Volumes** and click **Reports→Date Aging→Last Mount Time**.

The screenshot shows the TapeTrack TapeMaster™ (GazillaByte) application window. The interface includes a menu bar (File, Administration, Favorites, Tools, View, Help) and a Customer Filter. On the left, a tree view shows the hierarchy: GazillaByte - Production > US00 - United States > US01 - New York > US02 - Los Angeles > CONT - Cont. > LTO - LTO Cartridge > US03 - North Carolina. The main area displays a table of volumes for the Los Angeles Data Center LTO Cartridge. The table has columns: ID, Current Location, Target Location, Flags, Next Move, and Description. Below the table, there are statistics: Total Items 263, Total Selected 263, and First Selection 1. At the bottom, there are icons for GemTrac, Library, and Offsite Vault, and a status bar indicating the connection uses AES 256 bit encryption.
