

Attribute Pie

The Attribute pie graph displays **volume** Attribute data in a simple easy to read format. **Volumes** are grouped by similar Attribute values and displayed in a % based format with a color coded key.

Selecting Volumes for Display

Select all **Volumes** by right-clicking in the Inventory window and select Select→All, or using shift+click and/or control+click select the range of **Volumes** required.

Right click the selected **Volumes** and click Reports→Attribute Pie.

Click the X in the top right of the window to close.
