

Special Operations Menu

The **Special Operations Menu** provides advanced functions for [Volumes](#).

image.png

Operations

- **Add Note:** The [Add Note](#) function will launch the [Add Note](#) window.
- **Check for Duplicate within Customer:** The “Check for Duplicate within Customer” will search the current [Customer](#) for [Volumes](#) with the same [Volume-ID](#) as the selected [Volume](#).
- **Confirm:** The “Confirm” operation confirms the selected [Volume](#) at its Target Location when it is in a move.
- **Find Duplicate Slots:** The “Find Duplicate Slots” will find [Volumes](#) that have been assigned to the same Slot as another [Volume](#).
- **Modify:** The Modify Menu contains options to Add a [Volume](#) to a Container, Add a [Volume](#) to a Data Cluster, Set a Volume's Home Repository, Modify [Flags](#), and Modify Return Dates.
- **Container:** The Container Menu provides three options: Register, De-Register, and Purge. Register will add the designation of “Container” to a Volume. De-Register will remove the designation of “Container” from a [Volume](#). Purge will remove all [Volumes](#) from a Container.
- **Scan to Add Volumes:** The “Scan to Add Volumes” Function will launch the [Barcode Scanning Window](#) and add the [Volumes](#) being scanned to the selected [Customer](#) and [Media Type](#).
- **Scan to Select Volumes:** The “Scan to Select Volumes” function will launch the [Barcode Scanning Window](#) and select the [Volumes](#) being scanned in the [Volume List](#).
- **Show Move Dates in Month View:** The “Show Move Dates in Month View” function will launch a window displaying the [move](#) dates for the selected [Volume\(s\)](#) in a calendar format.
