

Two Step Authentication - One Time Password

TapeTrack now has the ability to use 2FA authentication for user logging into all desktop software.

The 2FA code is supplied by a third party authenticator, such as Google Authenticator, 2FAS, Authy etc.

Logon

Connection to this TapeTrack Server is restricted to authorized users only.
Please select your TapeTrack Server and enter your credentials.
All access attempts and successful connections will be recorded.

Server: Local

Select a Server or click the button above to add a new Server.

User or Email: demo

Password: [masked] 122487

☐ No MD5 (required for Active Directory authentication)
☒ Save User History

OK Cancel
