Customer

A Customer represents an owner, or parent entity, of a group of media types and the media within them.

Customer-ID

A Customer-ID is a string of up to 4 alphanumeric characters and is permanently assigned at creation.

Each Customer object's ID must be unique.

Customer Description

A Customer object has a description field. This allows a user friendly description of up to forty alphanumeric characters to be associated with the Customer-ID.

Dependencies

- Media Type (child)

Creating a Customer

A Customer Object can be created using TapeTrack TapeMaster.

- Adding and managing a Customer with TapeTrack TapeMaster.

TMSS10BatchLoader can be used to create multiple Customers with similar Media and Repository requirements using a batch and configuration file.
